Capella, Jan. 15.—The holidays passed off quietly in our little village. I am glad to say that not one person did I see drunk during the entire week. This speaks well for prohibition.

A Visitor From the Far West.

Mr. L. C. Davis, of Portland, Oregon, is here on a visit to his people, and was shaking hands with his scores of friends in Danbury this week. He has been absent in the far west for four years. Clint says Oregon is a great State. He would not for any consideration live in this country again. Portland is a city of 250,000 people. Clint has been to see Prof. W. B. Harris several times during the past two or three years. The Prof. with Homer, his son, tends over 300 acres of land. On this immense farm every foot is in cultivation. The land produces from 25 to 50 bushels per acre of wheat. Prof. Harris bought 160 acres at \$50 per acre, and could sell now at \$125.00 per acre, or \$150.00.

In the West, Clint says, everything is Union. The farmers price their own stuff, and whatever the organization lists products at, that is what you must pay. Clint will spend two weeks with relatives.

D. P. REID WRITES

OF HIS SMALLPOX EXPERIENCE

Replies to "Old Timer," Who Had Letter in Last Issue of the Reporter—Thinks He Contracted Disease in Walnut Cove.

Dillard, Jan 16,

Editors Reporter:

Please allow me space in your paper to reply to "Old Timer."

I saw in last week's issue where he said there was no smallpox in Walnut Cove and never had been. I wish to tell the people that I caught a bad case of smallpox there for I hadn't been out anywhere else to catch it. It came very near killing me. I was down four weeks, and am not able to work now. I think I caught it from Mr. Joe Allen. He was walking the streets there when he ought to have been in the pest house and a guard over him if he didn't have judgment enough to stay in off the street. Such people as "Old Timer" are the cause of it being scattered all over the county, thinking they know more than the doctors. At that time we had no county physician.

Dr. Wilson, from Madison, deserves the credit of stopping it. He came up here and vaccinated my family and all that had been exposed to it, so no one caught it from me. If the people of Walnut Cove don't believe that I had the smallpox, ask Dr. Fulp. Will close, wishing all of the readers of the Reporter a happy and prosperous New Year.

Respectfully,

D. P. REID.

Guilty Pair Flees to Patrick.

Tom Tilley and Sadie Manuel eloped to Patrick county, Va., last Tuesday night from this place. Tilley is a married man, and leaves a wife and several children here. The Manuel woman is a young widow, wife of the late Little Pleas Manuel. She carried her children along. The pair are said to be living together near Stuart as man and wife.

It is reported that Tilley and his paramour had already lived with relation to each other in such manner as to violate the rules of common neighborhood decency. If their sojourn here had been longer prolonged, a vigilance committee would probably have waited upon them. The woman is said to be in a condition which will early necessitate the services of a physician.

The man Tilley enjoys the reputation of being a wife-stealer. He is charged with breaking up more than one marital contract, and once eloped with a half-white nigger from Danbury. He has served terms in jail and on the road.

The Patrick authorities when apprised of the character of their guests, will doubtless take immediate action.

It is stated that the father of the Manuel woman, Wm. Mounce, of this place, will swear out a warrant for Tilley.

Vaccination Very Successful At Westfield—Other Interesting Notes.

Westfield, N. C., Jan. 17, 1910.

—The smallpox scare here is now about over; we only have one case, that of Mr. Howard Payne. The other members of the family have been vaccinated and the doctor says that another case will hardly break out. Being vaccinated will sure keep it off for it has been plainly proven here in this family. S. P. Christian and wife, R. K. Simmons and wife, Dr. J. T. Smith and wife and Mrs. Alice Lowe attended the burial services of Mrs. O. N. Swanson at Pilot Mtn. last week. Mrs. Swanson was one of our schoolmates and we all felt sad indeed to learn of her death. She leaves a husband and five children, the youngest being just two months.

Messrs S. T. Shelton and Ramey Simmons brought in another fox last week. Come on, Brown Mountain boys, wake up, we have the dogs that know how it is done.

Mr. L. L. Lowe spent part of last week in Winston-Salem. He reports tobacco selling well and advises his farmer friends to put what they have ready on the market at once.

Rev. R. W. George passed through our town last Sunday enroute to Pine Ridge to preach. Mr. George is Pastor at that place and generally goes. He doesn't mind the weather like some people.

Mr. R. W. Neal was a visitor at our town yesterday. Mr. Neal tells us that he is making arrangements to start South with a drove of stock next week.

Miss Ruby Lowe left last Wednesday for Thomasville where she entered school for the remainder of the term.

The Westfield Graded School will open on the 24th of January, after a three weeks' vacation on account of smallpox.

Mr. E. F. Inman spent part of last week in Winston looking after his interest in some tobacco.

Mr. S. P. Christian's little children have both been right sick for a few days, but are now on the mend.

RAILROAD COMING

SECOND PROJECT ON TAP

The Surry-Stokes-Rockingham Development Company to Build Electric Line From Draper, via Leaksville, Spray, Stoneville, Sandy Ridge Danbury and to Mt. Airy.

Dr. Francis J. de Giers and Mrs. de Giers, of New York city, accompanied by Messrs. Lewis and others of Stoneville, were in Danbury yesterday and held a meeting at the McCannless hotel looking to the building of an electric railway from Rockingham, through Stokes and to Surry, at an early date. Dr. de Giers, speaking to audience composed of a number of the most influential citizens of the place, stated that he is a railroad promoter of New York, and is connected with Clarence M. Smith & Co., of 64 Wall St., New York, finance brokers. The proposed electric line is to run from Draper, via Leaksville, Spray, Stoneville, Sandy Ridge and Danbury to Mount Airy. Work of surveying the line is to be started this week. While not looking for local capital, the Dr. was anxious for local citizens of influence to interest themselves in the project to the extent of a few shares at \$100.00 each. He exhibited a list purporting to be subscriptions of stock from about 25 citizens of Stoneville, each taking from one to five shares.

It was eminently desirable, Dr. de Giers explained, that the road should have the moral support of the section to be traversed. The financial support was secondary, as the few hundred or thousands which he could enlist here would not be a drop in the bucket when it came to building the road, and would only be used to defray the expenses mainly of the survey and to show to the eastern capitalists who build the road that home people are interested.

The Danbury people assured the Doctor that their moral support and influence should not be withheld, but that his railroad would be welcomed with much pleasure. It was felt quite sure that the right of way could be obtained. Regarding the subscriptions for stock at \$100.00 per share, they requested a little time in which to give the subject thought, when they would invest as liberally as their limited means would permit, and their calm and safe judgment direct.

The Dr. and his party left Tuesday afternoon for Mt. Airy, followed by the best wishes of all our people.

Notice to the Public.

After the first day of Feb., 1910, the Walnut Cove Roller Mills will only run four days of each week. The days the mill will run will be Monday and Tuesday and Friday and Saturday. I hope the people will learn the days and come when the mill is running. I appreciate the patronage the people have given me the past year. If you come to my mill I will treat you right and guarantee satisfaction. I wish you every one a prosperous new year.
