IMPORTANT MEETING FOR NEXT SATURDAY

The Farmers' Institute and the Women's Institute to Be Held Here--Attractive Programs For Both--Large Crowd Expected.

Next Saturday marks the date of one of the most important meetings for the year at the county-seat--the Farmers' Institute and Women's Institute. While these two gatherings will act in unison and with mutual co-operation, yet each is a separate and distinct organization. While the Farmers' Institute will be in session in the main auditorium of the court house, it is the request of Mr. I. G. Ross and the other leading farmers that the grand jury and other rooms below be reserved for the use of the ladies, that both sessions may be held simultaneously.

Below follow programs for both meetings:

The above program is given to indicate the nature of the Institute, but it may be changed or added to as those present desire. A question box will also be open, into which all are invited to put such questions as they desire discussed. A large number of intelligent questions means an interesting Institute, and special attention will be given to this feature.

The Farmers' Institutes are held for the benefit of the farmers, and none but strictly farming questions will be discussed. It is, therefore, especially desired that a large attendance of farmers and their families be secured, and to this end you are urged to be present and to induce your neighbors to do the same.

Bring a pencil and blank book in which to take notes.

A premium of one dollar will be awarded for the best five ears of corn exhibited. The five ears exhibited must be of one variety, uniform in shape, size and color. Mixed corn or mixed varieties will not be allowed to compete for the premium. The exhibitor must be able to give as far as possible, the name of the variety, its productivity, yield per acre, and whether grown on upland or lowland. This offer is made solely with the view of studying corn and the comparing of different varieties.

M., for the purpose of examining the finances of the concern, electing directors and officers, and arranging details looking to the erection of a dry prizery at an early date.

Through an accident, the list of appointments in the county of Rev. C. W. Glidewell, the Union organizer and orator, was omitted from the last issue of the Reporter. Consequently, Mr. Glidewell could not fill a number of important appointments. However, representatives from the locals that were not visited are expected to be conferred with by Mr. Glidewell between this date and next Saturday's meeting. Mr. Glidewell requests the Reporter to urge that every person who is interested in the dry prizery come to Danbury next Saturday without fail.

NEAL OR MABE--WHO? THE FIGHT FOR TREASURER

Saturday's Republican Primaries Show the Meadows Man Leading in the Contest, With Mabe a Close Second, and Some Uninstructed Delegations--Republican Convention For Next Saturday Will Tell the Tale.

In the Republican primaries held last Saturday, the only contest of interest was that between the candidates for Treasurer, and according to the reports received by local politicians--all precincts being heard from except Pine Hall, Francisco and Mitchell's--G. W. Neal received 24 of the instructed vote. There are 73 votes in the convention, and Neal lacked a fraction over 12 being a winner. But W. M. Mabe, of Danbury Route 1, is only about 5 votes behind Neal, and some of the precincts unheard from may put a different light on the returns. King laid no instructions except for "the strongest man." Boyles and Germanton will both be divided. Some predict that Neal will win on first ballot at the convention to be held Saturday, while others prophesy that later developments will bring Mabe, Tilley and Tuttle into the balance, and that the contest will be close and interesting between these four. Other candidates whose names were before the primaries are as follows: R. H. R. Blair, C. W. Sisk, T. S. Petree and others. There will be no opposition in the convention to be renomination of Chilton for Clerk, and Jones for Sheriff or Slate for Register, but it is expected there will be new nominations for one or more commissioners, Mr. A. J. Fagg, of Danbury, being mentioned for a place on the board.

For the Lower House, the name of Mr. Chap Bodenheimer will probably be put before the convention, while the friends of Messrs. Luther Lowe of Westfield, and R. P. Glidewell, of Meadows, are urging them respectively for Treasurer.

A Voter Suggests Mr. Bodenheimer For Representative.

The name of Mr. Chap Bodenheimer, business agent of the Farmers' Union, is before the people and being voted for in the primaries to represent the people of Stokes county in the next Legislature. If elected much good to the farming interests might be accomplished.

A VOTER.

Pinnacle Route 2.

TEACHERS' INSTITUTE DOING GOOD WORK

Professors Howell and Smith and Miss Lindsay Conscientious and Earnest Laborers in the Cause of Education--Considerable Addition to the Ranks of the Attendants This Week--A Splendid Looking Crowd.

The Stokes County Teachers' Institute, which has been in session here since the 11th inst., and will adjourn at the end of two weeks, next Saturday, is doing some good work. Prof. Harry Howell, of High Point, leading in this special training for the teachers, is in love with his work, and when you see a person with this faculty, you see things done. He has been here twice, counting this time, has become acquainted with many of our peculiar conditions, has learned the teachers' greatest needs, and they have learned him. Thus, enabled to work in harmony, both are benefitted to that extent which might be expressed by saying this is the most profitable institute yet held. Of course without the valuable help of County Superintendent Smith not nearly so much could be accomplished. Professor Smith knows his teachers, and all about them, and is always at hand to aid any one who needs help. Miss Lindsay, who is a specialist in one or two branches of the institute work, is a most important assistant, and with her help the work moves along with system, precision and effectiveness. Miss Lindsay, during this her first visit to the county, has won many strong friendships which will endure.

It is not the desire of the Reporter to throw bouquets to the good looking body of teacher-students, but is constrained to say that our teachers will compare favorably with any county's teachers in the State. We would not be guilty of making the assertion that the ranks are filled with veterans who have done valiant service in the great fight against ignorance, but it is true that the discipline and loyalty shown by these young men and young women would do credit to those who are battle-scarred in the noble cause of education. There are youth, beauty, intelligence and character, and from the gallery one is proud to look on the teachers of Stokes county.
