## AFFAIRS OF MADISON

### NEW RAILROAD COMING?

Death of Mrs. Elizabeth Catherine Mitchell—Mr. F. B. Kemp to Move to Madison—Other Items.

From the Madison Herald.

Mr. and Mrs. B. R. Wall returned from their bridal tour last Wednesday, and are making their home at Mr. and Mrs. J. A. Pratt's.

Messrs. Tom Moore, Price, Hampton Pratt and William McAnally left Tuesday for Chapel Hill, to attend the State University.

Rev. L. W. Collins returned yesterday afternoon from his vacation, which was spent at his old home in Toronto, Canada. He was accompanied by his sister, Miss Beryl Collins, who will visit him for some time.

The warehouses of Madison held their opening sales Saturday, about 35 loads of primings being sold at average of something over 7 cts. Tobacco has started off better this year than last and it is thought it will sell considerably higher.

It is reported here that the contract was let yesterday by the N. & W. for a branch from its line at Ridgeway to Spray, the contract price being \$100,000. This, it is thought, will cause the Southern to at once build its proposed line from Leaksville to Madison and if this is done it means great things for this town and section.

Mrs. Elizabeth Catherine Mitchell died at her home at Intelligence early Saturday morning, and was buried Sunday afternoon at 3 o'clock in the family burying ground, Elder Coleman conducting the funeral services. Mrs. Mitchell was 72 years of age and for some time had suffered considerably with heart trouble, from which it was she died. She was the relict of the late John B. Mitchell, who preceded her to the grave about ten years ago, and was greatly beloved by all who knew her. She is survived by four children, as follows: J. B., W. S. and R. H. Mitchell and Mrs. Eliza Allen.

Mr. B. F. McGeehee and Miss Annie Reynolds returned yesterday from the northern markets.

Mr. F. B. Kemp, of Mayodan, has purchased the house and lot of Mr. R. A. Ellington near the graded school building and will move his family to Madison about the first of November. Mr. and Mrs. Kemp will be gladly welcomed to our little city as they are known and admired by all of our people.

### Raleigh Evening Times.

One of the biggest bids made for business in this state in recent years by a daily newspaper has just been announced by the Evening Times of Raleigh. The subscription price of this paper is \$5.00 per year, but for a period of ten days only, from October 1 to October 10 at 12 o'clock p. m., they are going to accept yearly subscriptions in advance for the sum of \$2.50. This certainly is one of the most remarkable offers ever made by a responsible newspaper in this section. It is frequently done in the North and West, but The Evening Times is the first to inaugurate such a plan in this section. The idea is, according to Editor Simms, of the Evening Times, that several thousand new subscriptions can be added to the list in these ten days and collections made on the old accounts with practically no cost, and, therefore, it is best to give the subscribers the benefit of the quick work. The Evening Times is Raleigh's great afternoon paper and its leased wire telegraph service and state news page is among the best. The idea of getting a daily paper on a bargain for \$2.50 per year in this state will be watched with much interest.

## IMPROVING SCHOOL

### ENLARGING HOUSE AT CAPELLA

Farmers Cutting and Curing Tobacco—Personals.

King, Sept. 12.—Cutting and curing tobacco are all the go nowadays at Capella.

We are glad to learn that a new addition will be built to the Capella school house soon. We hope the young generation will take a great interest in schools and try to succeed, as there are so many who do not take any part in the schools. They should go while young so they can prepare themselves for higher places in life.

### A JOLLY FRIEND.

### Gratifying Figures.

The year of grace 1910 can be called without exaggeration a good year for the farmers. Although few will be disposed to question this statement, it is probable that figures presented by two of our contemporaries dealing with grain crops in their respective counties may give a clearer idea of the agricultural prosperity at present enjoyed by North Carolina than could possibly be derived from any generalization. The Morganton News-Herald has received reports from farmers indicating that there have been threshed in Burke county this season 30,495 bushels of wheat, 2,820 of rye and 2,383 of oats, with some returns yet to be received. From similar reports The Danbury Reporter gives the figures for Stokes as follows: Wheat, 84,533; rye, 3,146; oats, 1,834.

These figures furnish good ground for optimism. "Next year," The Reporter believes, "the fever of bigger yields and less land will spread wide in every neighborhood. The slogan set on foot by the Farmers' Union, 'Raise your home supplies,' will echo and resound on every plantation and the improvement in the condition of the farmer will be in even a larger ratio than for the year drawing to a close."—Charlotte Observer.

### Romantic Marriage.

Prof. F. S. Blair, of Guilford College, and Mrs. Violet Porter Huntington, of New York, were married in Chicago last Sunday. Prof. Blair and Mrs. Huntington first met in Chicago a year ago while attending the peace conference as delegates. They were introduced, became friends, and marriage was the result.
