AT CLEMMONS FORD

ANOTHER BRIDGE ASKED FOR

Rev. R. W. George Presents Petition to Board of Commissioners Signed By Large Number of Citizens—Matter Deferred Till Next Meeting of Board—Other Matters Before the Commissioners.

Rev. R. W. George came before the Board of County Commissioners, who were in session here Monday, bringing a petition signed by a large number asking for a bridge at Clemmons ford on Dan river about seven miles above Danbury. Among the signatures to the petition were many of the leading property-holders of the county, from various sections. On account of the absence of one member of the board, Mr. T. M. Lawson, Messrs. Gann and Smith, the commissioners present, decided to defer the matter till the next meeting of the Board, the first Monday in November. It is learned that Messrs. Gann and Smith both favor the building of the bridge, which is a public necessity, and should be built. The good citizens of Quaker Gap have helped pay for the bridges in other sections of the county, and are entitled to some improvements in their country. A good steel bridge of the latest pattern ought to be given them.

Petitions for some new roads in Yadkin township were also laid over till the November meeting.

Other matters transacted by the Board were of a routine nature, such as the paying of claims, allowing tax refunds, etc.
