FARMERS' UNION MILL

SOON WILL BE COMPLETED

Public School Progressing With Sixty-five On Roll—Teachers To Give Box Supper.

Peter's Creek, Va., Nov. 8.—The election passed off quietly here from all accounts.

The public school at this place, taught by Mr. W. N. Bowles, of Mizpah, N. C., and Mr. Walter Leak, of this place, is progressing nicely, with 65 on roll.

The Farmers' Union, of this place, is getting on nicely with their mill. They have the first story almost completed, and the rest of the work is under good head way. This will be one of the finest mills in the state when completed.

The people in this section are about through sowing wheat. Large crops have been sowed.

Mr. Tom Ward, of Roanoke, Va., is at home on a visit to his friends and relatives. Glad to have you with us, Mr Ward.

The teachers of this place are preparing for a box supper to be held on the third Saturday night in November, the 19th, for the purpose of raising money to buy window lights and curtains for the school house and other repairs that are needed. All the ladies please bring boxes, and everybody come prepared for a good time. Music will be furnished by the Collinstown string band. All the proceeds will go to the repairing of the house.

Several people attended preaching at Creecy's Chapel in Virginia, from this place Sunday. Rev. Mr. Kessler delivered an able sermon to a large crowd.

Mr. Harper Lunsford left last Monday for some point in Indiana, where he will make his future home. We wish him much success.

TWO CHUMS.

Pinnacle High School.

Pinnacle is situated in the midst of a farming section, under the shadow of the old Pilot, where the air is pure, board is reasonable and its people are hospitable and kind. There are forty-two pupils in the High School department, and the school tone is high. With our competent Prof. T. L. Revelle at its head, and his worthy associates, we feel assured of a successful school year.

She has two Literary Societies, also a Woman's Betterment Society, that is doing much for the uplifting of the school. They have purchased for the school a nice piano, and ten desks.

In the afternoon of Thanksgiving they are to have a Bazaar and an oyster supper. The two Literary Societies will entertain at night.

SAVES AN IOWA MAN'S LIFE.

The very grave seemed to yawn before Robert Madsen, of West Burlington, Iowa, when, after seven weeks in the hospital, four of the best physicians gave him up. Then was shown the marvelous curative power of Electric Bitters. For, after eight months of frightful suffering from liver trouble and yellow jaundice, getting no help from other remedies or doctors, five bottles of this matchless medicine completely cured him. Its positively guaranteed for Stomach, Liver or Kidney troubles, and never disappoints. Only 50c. at druggist.

CALL TO FARMERS

BY ORGANIZER C. W. GLIDEWELL

The Stokes County Union Warehouse Company to Hold Important Meeting Dec. 1st.

Walnut Cove, Nov. 14. To The Stockholders of The Stokes County Union Warehouse Company:

As your notes are now past due, and we are so badly needing the money and territory is so large it renders it impossible for me to visit you all in person, I have adopted this method and I hope that it will meet the approval and be convenient to meet me in Danbury on Thursday, December 1st, 1910. Then and there I will be prepared to receive your money and turn over your notes and issue to you your stock certificates.

I hope that each stockholder will make it convenient to come in person or send by some one that will represent him and pay off your notes as our bills are heavy and are now falling due.

Our machinery has arrived and bills must be met and our building is being pushed forward as rapidly as possible and another payment will soon be due on the contract. So, dear brethren, let's not stop the progress of the building or either have to borrow money.

Remembering that the night of the first day of Dec., 1910, is the beginning of our annual county meeting, it being one of the most important meetings our county union has held for several seasons, officers to elect and the success of our organization largely depends on our leaders. Therefore brethren cast your minds around and select a corps of competent men, come one, come all, as I want to see your faces once more, that we may have a good old time love feast, and turn our backs on the old year forgetting all that is left behind and set our faces towards victory.

Fraternally,
C. W. GLIDEWELL.

The Winston Sentinel says that Mr. Jack H. Hill has closed up his warehouse in Eastern North Carolina and has returned to his old stand at the Leader Warehouse. Mr. Hill says he is anxious to buy a big stock of tobacco this year.

REV. D. A. BINKLEY.

Leaves For Conference At Winston—To Be Transferred to Another Field.

Rev. D. A. Binkley preached his last sermon for this Conference year at the M. E. Church Sunday night. The sermon was thoughtful and earnest, and was listened to with close attention by the audience. Tuesday Mr. Binkley left for Winston to attend Conference. This is the close of his fourth year on this circuit, and he will be transferred to some other charge according to the custom of the Methodists.

The people of Danbury will give up Mr. Binkley and his lovable family with sincere and lasting regret. No people have ever lived among us who have more deeply won the affection of our citizens.

Mr. Binkley has been a hard worker in this field. Having in his charge about ten churches, many of them situated remotely with respect to each other, he was kept busy meeting his appointments. His labors have been very fruitful, and he has added a larger percentage of new members to his church than any of his predecessors. This speaks highly of one who is engaged in his first ministerial work. Mr. Binkley is an earnest, consecrated man, and his preaching is always close to the Gospel. Not affecting style or eloquence, his sermons are most always simple, clear presentations of the Truth, and for this reason his influence for good has been felt, and will endure.

ZEB V. MABE'S CORN.

Under the Demonstration Plan This Energetic Young Farmer Grows 33 Bushels On One Acre.

Mr. Editor Reporter: I will give you the yield and cost of one acre of corn made on my place under the Demonstration method:

Land and corn measured by three disinterested men:

Yield of corn, 33 bushels.

Fodder and shucks valued at \$3.30.

Total cost, \$12.

Breaking land, \$2.50.

Harrowing, \$2.50.

Fertilizer, 200 lbs., \$2.50.

Fifty pounds nitrate of soda, \$1.50.

Planting corn, 50 cents.

Stable manure, \$3, not included, left to improvement of the land.

Cultivating, \$2.50.

The one acre of land was supposed by those who measured this crop off of it, to make 121-2 bushels per acre under the usual method of farming. Land on each side of it tilled in the last 4 years, made from 4 to 6 bushels corn per acre. The one acre was called feed yards and garden spot by those who show by the amount of Daisy Middlings they haul in the spring that they don't need to know any more about farming.

ZEB V. MABE.

There is little danger from a cold or from an attack of the grip except when followed by pneumonia, and this never happens when Chamberlain's Cough Remedy is used. This remedy has won its great reputation and extensive sale by its remarkable cures of colds and grip and can be relied upon with implicit confidence. For sale by all druggists.
