The notes of all those who do not pay on this round will be placed in the bank and interest will have to be paid on them.

Fraternally,
C. W. GLIDEWELL.

Farmers' Union To Build A Store At King.

King, Jan. 19.—Mr. J. Sam Kreeger, of Chestertown, Md., is spending a few days with his parents, Mr. and Mrs. J. A. Kreeger, who reside near here.

The residence of Mrs. W. G. Wright came near being destroyed by fire Sunday. It caught from a stove flue in the kitchen. About half of one side of the kitchen roof was burned. The entire building would have been burned had it not been for the heroic act of those present.

Mrs. Minnie Kerby and children have returned after a short visit in Tobaccoville.

The farmers' Union held another meeting here Saturday. It is learned that work on the new union store, to be built here will be commenced at an early date. The union is making big gains in this section.

Mr. N. E. Preston returned yesterday from the tobacco market at Winston. He reports the weed selling better than a few weeks back.

State Law Relative To Marriage Licenses.

Winston Sentinel.
Two young couples from Forsyth county have been married recently under marriage licenses issued in Forsyth county although the ceremony was performed in other counties.

In view of these two marriages recently it is well to call attention to the fact that both of them are null and void. A marriage license issued in one county is not good in another county, and it is to prevent mistakes of this kind that this article is published.

The law says : "No minister or officer shall perform a ceremony of marriage between any two persons or shall declare them to be man and wife until there shall be delivered to him a license for the marriage of said persons signed by the register of deeds of the county in which the ceremony is intended to take place or by his lawful deputy."

Another matter that is not strictly observed in connection with marriage licenses is the return of the marriage licenses to the register of deeds' office. The law requires them to be returned within sixty days and unless this is done anyone may sue the minister or magistrate and may secure \$200 damages. Frequently the licenses are kept out for four or five months and in one case for nearly a year.

\$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address : F. J. FROM CAMPBELL

THE HAWKINS FAMILY LEAVE

Company at Work on Railroad Between Spray and Ridgeway—Mr. Morefield Succeeded by Mr. S. M. Shelton in the Merchandise Business.

Campbell, Jan. 19—Mr. and Mrs. Van Mabe left last Monday for Mt., Va., where he has secured employment in the mines.

Miss Tobitha Watkins left last week for a visit to relatives in Mo.

Letters received here by friends, state the safe arrival of Mr. Geo. W. Hawkins and family at Glen St. Mary, Fla. They are much pleased with the climate and people. Trees are full of oranges, and no such a thing as winter out there.

Mr. E. H. Biggs is having a fine school at Smithtown. Although whooping-cough has been prevalent, he has made a nice average and gave the children a nice entertainment Xmas. Both parents and pupils speak in high terms of his instruction. 'Rah! for Smithtown, that's what we call progressing nicely.'

Well, is it really possible that we are going to have a railroad? It is said that a company has been chartered for one to Auglin's Mill, a few miles below Sandy Ridge, and that they are now at work between Ridgeway and Spray. Of course if it comes that close, Sandy Ridge can hope that it will come a few miles farther and take us all in.

Mr. L. B. Morefield moved his stock of goods to his father's the first of the year. Mr. A. M. Shelton now sells goods in the house formerly occupied by Mr. Morefield.

Farmers are busy having chop-pings and burning plant beds. Tobacco is selling very well from this section.

Guess we will need some of those wedding bells soon.

A GOOD POSITION

Can be had by ambitious young men and ladies in the field of "wireless" or Railway telegraphy. Since the 8-hour law became effective, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institute operates six official institutes in America, under supervision of R. R. and Wireless officials and places all graduates into positions. It will pay you to write them for full details at Memphis, Tenn., or Columbia, S. C. sep7 w
