

WANTS A DOG TAX

AT THIS SESSION LEGISLATURE

Mr. Kiger Thinks It Is Time A Crusade Was Started Against the Canines Running At Large In the County.

King, N.C., Jan. 30. To Each and Every Citizen of Stokes County:

Is it not time that we start a crusade against the worthless dogs of this county that are running at large and doing an unlimited amount of damage?

Thousands and thousands of dollars are the cost of the damages they do each year and then is it right that a person shall keep a lot of these worthless canines and when one of them in a rabid state bites a person there is nothing behind the dog whereby you can get damages for the anxiety and cost the worthless dog causes your family? I hope every person in Stokes county will take enough interest in this matter at once to write Hon. J. M. Fagg, at Raleigh, to see that a dog law is passed at this session of the Legislature, taxing every dog that lives within the borders of Stokes county, and sufficiently large that we will rid ourselves of about 90 per cent or more of the worthless things. Consider this matter for a minute and see if you can continue to take the risk and, if some one of your family gets bitten by a rabid dog, pay the cost of carrying them to Raleigh for treatment, and that's nothing compared to the restlessness and loss of sleep you might have for a month, and that is not all, you do not know that the one who is bitten will ever get well. So do not neglect

this important matter and let this Legislature adjourn without something being done for our relief.

WILL R. KIGER.

The Origin of Royster Fertilizers.

Mr. Royster believed that success awaited the Manufacturer of Fertilizers who would place quality above other considerations. This was Mr. Royster's idea Twenty-seven years ago and this is his idea to-day; the result has been that it requires Eight Factories to supply the demand for Royster Fertilizers.
