ASSOCIATION TO BE ORGAN-IZED IN STOKES COUNTY.

There is a movement on foot to organize a Young Men's Good Roads Association in for its mission the inculcation of good roads principles in the present and coming generations, and the carrying on of a campaign for the education of the people to the beauty, the efficacy, the vital importance, the indispensable value, and the urgent necessity of good roads in the future history of our county. A number of young men of the different townships of the county have already signified their cargerness to become members.

Here BLIC SALE OF LAND.

By virtue and authority of a decree of the Superior Court of Stokes County in case of James Rierson and Others and as Commissioner appointed by the Court in said case.

I will sell at public auction at the Court House door in Danbury on Monday, the 1st day of May, 1911, at 12 o'clock, M., it being the first Monday of said month, a tract or parwill have to be reckoned with.

ciation becomes a power which will have to be reckoned with.

The hope of the county is largely in the young men. In them must soon repose the burdens of government, and it is of paramount importance that they should be trained up to recognize the value of a sane economy in the administration of our internal affairs, and to conserve our natural resources, among which the happiness and prosperity of our citizenry is the head and front. Our young generations must be made to see the vital losses that the county yearly suffers, and the burdensome tax which our people yearly pay in their tribute to the system of disgraceful roads which permeate every section of our county. We once heard of a man whose meadows produced a fine yield of hay, but which he allowed to rot because it "cost" so much to get it mowed. This is a case in point illustrating an idiotic "false economy."

There was a time which is fresh in the memory of men still living when prominent-boned cows explored every high-

Source of some conditions as allowed to exist because of the prevalence of some conditions of the popular mind, chief among which were stubbornness, prejudice and ignorance. It took years of education, and several elections, to abolish the absurd "fence law," but today in an intelligent audience, it would be hard to get any citizen to admit that he once voted and worked and talked and cussed to keep it in effect. Likewise it will take some years of education and several elections to convince the masses that our system of bad roads is a costly error, a vital extravagance, an idiotic policy which depletes population, destroys business, taxes the people to death, and brings on us the deserved reprach of intelligent people.

The Young Men's Good Roads Association will have much todo, but it can do much. Its meaning is broad, high, deep, patriotic, and sacred. Its accomplishment will mean tremenduous possibilities for the spread of education, the encouragment of industry and farming, and the prosperity and ESTATE.

happiness of the people. The home, the school and the church will be the chief beneficiaries.

Notice is hereby given that the undersigned will apply to Governor W. W. Kitchin for a pardon for Hump. Mitchell, who was convicted at fall term, 1910, of the Superior Court of Stokes county on a charge of false pretense and sentenced to work on the public roads of Rockingham county for a term of two years.
