

HOW CAN THEY REACH US?

The tide of wealth that is constantly flowing from the North, the West and East into North Carolina passes by those counties that are inaccessible on account of bad country roads. The new-comers do not care so much for railroads. They are looking for the macadam and sand-clay turnpikes on which they can run their automobiles. Around Asheville and in other sections of Western North Carolina rich men are building hundreds of summer and winter homes. Not one has been erected away from a good road. Do we want our share of this influx of good people, with their wealth, their refinement, their culture, their prosperity? We must, then, bid for it by making a navigable path to our doors. No visitors will come through the mud, or over the rocks and the pine spikes in the roads.

Effort of Inhuman Wretches To Burn Companion Alive — Two Arrested And Now In Jail.

Wentworth, June 27.—Jailor Martin has received in the county prison Bill Cheshire a well known well digger and William Johnson, who has recently served time on the county convict force, two white men, charged with one of the most cruel and inhuman deeds in the catalogue of crime—that of trying to burn alive a human being.

It seems that Will Davis, Bill Cheshire, William Johnson and Davis says three other men contributed to purchase a gallon of mean corn whiskey and after securing the same the parties gathered at a select spot, near the head gate of the Spray canal, at which to drink their "hell's broth."

It was not long before dispute arose as to Cheshire drinking more than his rightful share of the contents of the jug. Will Davis struck one of the party, whereupon the crowd seized Davis and putting him in a watchman's house, which stood on the bank of the canal, they barricaded the door and proceeded to set fire to the house.

Davis screamed and cried and begged for life, piteously imploring them not to burn him alive, but the inhuman and cowardly wretches, it is alleged, turned deaf ears to the cries of the suffering man until the house was nearly consumed by the fire. Then they released Davis and pitched him into the canal, evidently expecting him to drown but there was a pipe in the canal and Davis threw his arm around the pipe, thus saving himself from a watery grave.

The drunken party immediately left the scene, thinking Davis had been effectually disposed of but not so; Davis crawled out on the canal bank and quickly raised the alarm, secured the necessary assistance to reach his home and sent for physicians, who found him in a horrible condition. The flesh on his back was burned to the thickness of half an inch; his limbs almost burned to a crisp and his sufferings were terrible in their intensity of pain.

Warrants were issued at once by Justice Amburn and Manly, and Bill Cheshire and William Johnson were arrested and carried before Davis and in a crowd of other men and Davis unhesitatingly pointed out and completely identified Cheshire and Johnson as being two of the five who committed the horrible crime.
