Bad roads keep down land-values and smother progress. They make rural schools a failure and farm life drudgery. They discourage the raising of fine stock and encourage the use of archaic, ramshackle vehicles. They destroy local pride and make county and individual ride an impossibility. They encourage that which should not be done and discourage that which should be done. They lead through the "slough of despond" in this life and afford small opportunity of fitting one's self for anything better in the world to come. To paraphrase Goldsmith: "Ill fares the land—to hastening ills subjected, Where mud accumulates and roads are constantly neglected."

Potatoes Were Never Such a Failure As this Year.

Never before within the memory of our oldest citizens has the Irish potato crop been such a complete failure as this year. Hardly a half day's ride will find a farmer who raised as many as he planted. Most potatoes were given up and the land planted in something else. The dry weather just simply exterminated them.

Mr. Wesley Pringle, young son of Dr. A. J. Pringle, was in town with a load this week which he sold easily at \$1.50 per bushel. Usually at this season they can be bought at 50 cents.

SPRING BRINGS SORE FEET HERE IS A POSITIVE CURE

With the advent of warm weather comes foot troubles to thousands of people. The increased temperature and heaviness of the atmosphere causes swelling and excess perspiration. This brings on a series of foot troubles. The treatment given below will be welcomed with joy by an army of sufferers. It acts like magic. "Dissolve two table-spoonfuls of Calocide compound in a basin of hot water; soak the feet in this for full fifteen minutes, gently massaging the sore parts. Less time will not give the desired results.) Repeat this each night until the cure is permanent." All soreness disappears immediately. Corns and callouses can be peeled right off. Bunions are reduced to normal and the inflammation drawn out. Sweaty and smelly feet, tender and swollen feet need but a few treatments. This Calocide is a remarkable drug. Formerly used only by doctors but any druggist now has it in stock or will quickly get it from his wholesale house. A twenty-five cent package is claimed to cure the worst feet.

These Patent Tension Steel Shears FREE with one years subscription to the :: :: :: SEMI-WEEKLY OBSERVER

The Latest and Most Useful Household Invention.

The cutting edge on these shears is indestructible and will never wear dull. They will cut anything and everything from wet tissue paper to a heavy horse blanket.

Note the Patent Tension Spring. It Does away with Resharpening Entirely. Eight inches long. Eight-inch Patent Tension Spring Shears.

THE SHEARS being distributed by The Semi-Weekly Observer are manufactured of the very highest grade steel, perfectly tempered and heavily nickel-plated on highly polished surface. The patent tension spring takes up the wear on the rivet, so that the cutting edges will never wear dull. A simple turn of the little thumbscrew will adjust the blades to cut anything from the thinnest and most delicate fabric to the heaviest material. Every woman who has had the exasperating and trying experience of attempting to cut with a dull pair of shears will appreciate the value of this new invention.

Read this guarantee. We guarantee the quality of the material and the workmanship in these shears to be first class in every respect; that the tension spring doubles the usefulness of the shears and does away with the necessity of resharpening. A printed guarantee certificate accompanies every pair and contains the following: "If this pair of shears breaks or becomes defective in any way within five years from the date delivered it will be replaced with a new pair free."
