A large crowd of Y. M. C. A. boys from Greensboro are in camp at the Springs now, and are having the time of their lives. The young men are good looking, gentlemanly fellows, and are very popular with the guests at the resort. The camp, which is in charge of Mr. E. W. Yergin, Secretary of the Greensboro Association, has been named Whipporwill Camp, apropos of the large number of whipporwills that gather around the tents at night and lull the boys to sleep with their wood melody. The members are issuing a camp paper which is called the Whipporwill Whistle, in which is recorded all the news of the camp, the days happenings, the fishing and hunting exploits, etc. The boys will be in camp until sometime in July. They are enjoying the healthful and interesting outdoor life immensely.

The hotel managers have booked reservations for a large crowd of guests for July and August, and the indications point to even a more successful season at the popular resort than was last year.

Mr. J. A. Southern's Estimate—Mr. Southern One Of the County's Best Wheat Growers

Mr. J. Alex Southern, of Germantown Route 1, was in town a few days ago, and the Reporter interviewed him with regard to the wheat crop, which is reported short from every section of the county. Mr. Southern, who is one of the county's biggest wheat growers, owning a large farm which is peculiarly adapted to the growth of the cereal, gives it as his opinion that there will be less than half a crop of wheat harvested. The great shortage is attributed to the wet weather of the winter and spring, which caused rust, and to the destructive Hessian fly, which got in its work to an unusual extent on the present crop.

As early as last court, which was the first of May, Mr. Southern predicted the shortage, and he sees no reason to change his figures.
