ELECTION NEXT WEEK

Senatorial Fight Over-shadows All Others In this State

DEMOCRATS WILL WIN

Roosevelt Will Probably Run Third In the Presidential Race—The Electors.

This is the last issue of the Reporter before the election. The next issue will be sent out on Wednesday morning after the election and will tell the result as far as it is possible to give it at that time.

At this writing the Senatorial fight between Messrs. Kitchin, Simmons and Clark is overshadowing all others, the friends of each one claiming to be in the lead. It is impossible to tell how the fight will go. Stokes will no doubt give Governor Kitchin a good majority.

As far as the State ticket is concerned the usual Democratic majorities will no doubt be given. From the general outlook it is probable that Locke Craig and the Democratic State ticket will win by 50,000, even if the Republicans and Progressives should fuse.

In the presidential vote Wilson will get a large majority in North Carolina, while most of the papers of the State think that Taft will run third on the ticket, Roosevelt taking the second place.

Very little is said about the congressional race in the State. In some districts the Democratic candidates have no opposition. In this district Mr. C. W. Curry, of Greensboro, is opposing Major Stedman for Congress, though the election is conceded to the latter by a large majority.

There are about 25 counties in the State which are very close politically and may send Republican members to the Legislature. However, there is no doubt that the next General Assembly will be overwhelmingly Democratic in both branches.

The Democratic electoral ticket is as follows:

FOR REPUBLICAN FUND

Charles P. Taft Heaviest Contributor To His Brother's Campaign

Washington, Oct. 26.—Contributions totaling \$591,032.20 and expenditures of \$558,311.25 in the Republican presidential fund were disclosed in the financial statement of the Republican national committee filed today with the clerk of the House of Representatives.

Charles P. Taft, brother of the President, appeared as the largest contributor, the reports showing that he gave \$50,000 in two \$25,000 contributions to New York headquarters and \$6,000 to Chicago. Francis L. Leland of New York gave \$35,000.

FINANCIAL OUTLOOK

Was Never Brighter In the History of the Country.

MUCH CASH IN STOKES

The Deposits of Local Banks Show Large Increase Over Year Ago—Collections the Best Ever.

The financial outlook was never brighter in the history of the nation. The biggest crop ever harvested in wheat, cotton, corn, and tobacco will add 10 billions of dollars to the wealth of the farmers, and the reflection of this stupendous addition to the country's wealth is seen in the great increase of earnings by the railroads, and the marked stimulation of trade in all lines of business and industries. The presidential election will not affect the situation at all. This is declared by practically every leading banker, capitalist and financier in the United States. Notwithstanding some of the political managers are preaching disaster ahead, it is conceded by all who are not politicians that the election of Roosevelt, Taft or Wilson cannot affect business unfavorably. The policies of all the parties are sufficiently well known, and the big interests several months ago adapted themselves to whatever may arise. There is a strong reaction setting in among the people calling for less radical adjustment of "big business" and more careful and conservative handling of the nation's vital element, which is business.

In Stokes county the farmers are receiving handsome returns on their year's labors, and the landlords are being well repaid for their investments. The people are enabled to pay their debts, and purchase future supplies for cash. Collections at the local banks, the Bank of Stokes County at Danbury and Walnut Cove, are the best in the history of the institution. Scarcely any renewals are desired by farmers, who are meeting their October, November and December notes with the currency. Deposits at Walnut Cove last Saturday passed an unprecedented mark, while at Danbury the showing was equally as good. The Bank of Stokes has nearly \$80,000 more on deposit than this date a year ago, and announces that it is prepared to loan money at reasonable rates to all persons on approved security.

The tobacco growers in this community have been wearing a broad smile for some time, but all their bright tobacco being sold the sorry and green is being left on hand. The smile has begun to narrow up to some extent.

If you don't get the Reporter, see what's the matter. Let's make our county paper one of the best in the State.
