

IS YOUR MONEY SAFE ?

The Bank of Stokes County Invites the Fullest Investigation of Its Responsibility and Methods.

Security is what you wish for your savings. We offer it and invite your fullest investigations as to our reliability, business methods and facilities.

"My advice is put all your spare cash in the bank and let it remain there, paying your bills by check. The people who imagine the ginger jar, stocking, clock, or trousers pocket are safer receptacles for money than a bank, are shining marks for mining sharks, also for moths, thieves and fire."—Elbert.

"Who are the wisest men you know, the shrewdest and the most successful? Think the list over carefully—of the capable, solid men of your town. Where do they keep their money? In the bank or in the home? Did you ever think of that? Only deluded people keep their savings hidden away in the house—bait for burglars, sometimes murder, and food for fire and mice. This is a fact. And you are simply getting ready to cheat yourself out of money if you disbelieve or forget it."—Colin Wharton.

These are not our words, but those of men who deal in facts and statistics. If you agree with them open a savings account with us today. Your money will be absolutely safe and will draw interest.

Deposits by mail will be promptly acknowledged. Write us about opening an account.

Campbell Man Wants Good Roads

Campbell, N. C., Jan. 15.
Mr. Editor:

I am glad to see that our county is beginning at last to take an interest in roads. I do not believe there is any other question that is half so important for the consideration of the people of Stokes, especially of those who live in the back part of the county, as the question of roads.

In my neighborhood are a number of men who will vote for good roads, while there are others who will vote against the bond issue because they say that they do not care to vote on themselves more taxes than we already have. It is a strange thing to think that a citizen who is paying three to half a dozen days per year working on our makeshift roads, his time worth say \$5.00 per year, who is taking from three to five days every trip he makes with a load of tobacco, besides seriously injuring his stock pulling over the mud, rocks, hills, and gullies; who is losing from one to two months time every winter because he cannot get out and haul wood, rock, timber, or do other outside work with his teams, and whose family is forced to sit at home through the long winter months on account of the great difficulty of getting out to church, visiting neighbors and get some kind of enjoyment out of the world—I say it is strange to see an intelligent citizen array himself against roads without considering what a great injustice he is doing himself, his family, his county and his nation thereby.

If we would one moment consider how much we have spent indirectly and how much we have lost indirectly on account of our bad roads, we would all get busy and try to carry the bond issue for good roads.
FARMER.

Getting the Garden Ready For Next Spring.

The manure you intend to use on the garden will be better applied now than in the spring. Cover the garden heavily with manure and let it lie on the surface all winter. Even where the winter crops of spinach, kale and onions are growing I spread the manure, for the mulch between the rows will be an advantage. On some vacant spots I have sown crimson clover to be turned under in the spring, and in every way I try to maintain organic decay in the soil, and then use high-grade commercial fertilizer heavily, for to make the garden crops, we must have these. The manure furnishes nitrogen, and we want plenty of phosphoric acid and potash to make the fruiting of the crops. Therefore, after covering the garden with manure I add in spring a fertilizer analyzing 2 per cent ammonia, 8 per cent phosphoric acid and 10 per cent potash, as my soil is the light sandy soil of the coastal plain and needs potash.—W. F. Massey, in The Progressive Farmer.

Lameness

Sloan's Liniment is a quick and reliable remedy for lameness in horses and other farm animals.

"Sloan's Liniment surpasses anything on earth for lameness in horses and other horse ailments. I would not sleep without it in my stable."
MARTIN DOYLE,
432 West 10th St., New York City.

Good for Swelling and Abscess.
Mr. H. M. Grooms, of Lawrence, Kan., R. F. D., No. 3, writes:—"I had a mare with an abscess on her neck and one 50c bottle of Sloan's Liniment entirely cured her. I keep it all the time for galls and small swellings and for everything about the stock."

SLOAN'S LINIMENT

is a quick and safe remedy for hog cholera.

Governor of Georgia uses Sloan's Liniment for Hog Cholera.
"I heard Gov. Brown (who is quite a farmer) say that he had never lost a hog from cholera and that his remedy always was a tablespoonful of Sloan's Liniment in a gallon of slops, decreasing the dose as the animal improved. Last month Gov. Brown and myself were at the Agricultural College building and in the discussion of the ravages of the disease, Gov. Brown gave the remedy named as 'unfailing.'"

Stuart, Va.

Stuart, Va., Route 2, Jan. 13.
Mrs. Mary Shelton has been very low for the past few days and also Mrs. Charlie Hudson is low and not expected to live.

Mr. Willie Gray and sister, Miss Bessie and Miss Dora Rorer spent Saturday night and Sunday with Misses Rhoda and Grace Williams.

Misses Georgia and Ollie Nowlin spent Saturday night with their uncle, Mr. R. L. Martin.

Mr. and Mrs. Sandy Newman spent Thursday with Mrs. Newman's parents, Mr. and Mrs. C. C. Nowlin.

Misses Jennie, Pearl and Kate Sheppard spent Saturday night with their uncle, Mr. John Martin.

Misses Viola Smith and Nora Vaden preached at Gray's school house Monday night.

Misses Bessie Gray and Dora Rorer entertained several of their young friends Sunday night. Among those present were Misses May and Hester Gunter, Alpha Simmons and Nellie Gray; Messrs. Hermon Shockley, Lewis Mitchell and Grover Beasley. They all report a nice time.

Miss Nannie Gunter spent Sunday night with Misses Georgia and Ollie Nowlin.

Mrs. Lillian Gunter spent Sunday evening with Mrs. Jim Collins.

Mr. W. R. Gunter made a business trip to Stuart Monday.
SQUIRELL.

The Renter Can Make Money

The man who farms one piece of land this year and another next year will always have a hard time to get along and to get out of the one-mule class. We need in the South a fair and permanent tenant system that will encourage young men to farm right and to feel that so long as they do so they can remain as permanently as though the farm was their own. It is the cropper system of the South that keeps men in the one-mule class. Land-owners need to understand the point that can be made by having a permanent tenantry in comfortable homes, under a system that is fair to both sides. We need good farmers, tenants compelled to farm in a systematic way, not only for the benefit of the tenant but also of the land-owner.

Of course, it is better for the young farmer to work out his salvation on land that is his own, but when one can only get the stock needed he had better get a fair rental and farm on the land of another till he is able to get land of his own.—W. F. MASSEY, in The Progressive Farmer.
