AGED PEOPLE

cannot properly masticate solid foods and digestion is often upset—they do not receive the needed nourishment to make strength and preserve health, but if aged people everywhere could only realize the strength-sustaining nourishment in Scott's Emulsion they would take it after every meal.

It possesses the nourishing elements of cod liver oil, the vital powers of the hypophosphites of lime and soda and the curative qualities of glycerine, all so perfectly combined that nature immediately appropriates them to create strength—nourish the organs and build the body. It relieves rheumatism and ailments due to declining years. It adds to the quality of life.
