

LOCAL NEWS

Some of the Danbury people are expecting to take in the 4th of July at the Guilford county Battle Ground at Greensboro.

Among the visitors at Piedmont Springs are Messrs. John T. Simpson and Joe Glenn, well known to the people of Stokes county as of the mainsprings behind the success of Brown's Warehouse. Last season Brown's made a very enviable record among the warehouses of North Carolina, South Carolina and Virginia, when the high prices were gladdening the hearts of thousands of tobacco farmers. It is sincerely hoped that high prices will reign again this fall, and it is believed by the best judges that they will reign again, and you may bet your bottom dollar that John Simpson and Joe Glenn will do all in their power to bring back the good times, and will be just as happy over it as the farmers.

SCRIBBLER.

About Cutting Tobacco.

Mr. Editor.

Dear Sir:—Forty-eight years ago I began the work of growing tobacco. After a few years I decided, or rather discovered, that there were certain days better than others for cutting tobacco in order for it to cure up nicely and have a "heavy body" and be oily and "waxy."

To explain, I'll say that tobacco has a sap just as a tree and tobacco also has at intervals an oily substance, which is its natural possession. When the sap, or water, rises in tobacco it pushes out the oil through the pores of the leaves on the principle that water and oil won't mix, and tobacco cut in this state will be light and "chaffer," when cured. From the fact that sap pushes the oil out of tobacco is why it is so "gummy" at certain times and barely stain your hands at other times.

But cut tobacco when full of oil and it will cure up nicely and have a "heavy body" and be oily and "waxy." When tobacco is full of oil it cannot evaporate as sap does in curing, therefore the tobacco is compelled to be rich and heavy. Farmers have experienced cutting tobacco one week and do well with it and then again the next week and off of the same piece of ground and have altogether different luck. If any of the farmers will write and send a stamp for reply I'll be pleased to write to them upon this matter.

Yours truly,
Daniel V. Davis,
Mocksville, N. C., R. F. D. 3.

Also a \$300.00 Barn Goes up in Flames—Barn Was Struck by Lightning.

Messrs. Hub Moore and Will Rhodes lost a new thrashing machine by fire last Saturday night, the loss being complete. At the same time a \$300.00 barn belonging to Mr. Rhodes, went up in flames, together with some tools and feed. The cause of the fire was a bolt of lightning which during the storm of Saturday night struck the barn, and before the machine could be removed it was burned with the building.

Messrs. Moore and Rhodes had just bought the gin, and had threshed only one crop. Their loss is several hundred dollars. The scene of the fire was near Prestonville.

A BATTLE NEAR FRANCISCO

Between Whites and Blacks, but No Serious Damage Done—Needing Rain in Quaker Gap Township.

Mr. F. S. Nunn, a prominent citizen and a good farmer of Quaker Gap township, was a Danbury visitor today. Mr. Nunn reports crops very good in his section, but are needing rain very badly at present.

Mr. Nunn reports at a colored preaching stand near Francisco at which there was preaching last Sunday several fights took place, but no serious damage was done. The parties names who were fighting could not be learned, but Mr. Nunn says there were some two or three negroes and one or two white men in the difficulty. Several pistol shots were fired, but as far as has been learned nobody was hit.
