DISEASED CATTLE.

"Sore Mouth" Prevalent Among Cattle In Stokes -- A Remedy Given By Dept. of Agriculture.

A number of Stokes county people have recently mentioned the fact to the Reporter that their cattle were suffering with a disease known as sore mouth, and the following sent us by the State Department of Agriculture may prove of interest:

We are beginning to receive reports of some disease that spread over the entire State last fall, Mycotic Stomatitis, or Sore Mouth and feet of cattle. This is a disease caused by cattle eating food containing irritating fungi, which caused an inflammatory condition of the mouth, tongue, nostrils, udder and throat.

THE CAUSE.

The disease is the result of cattle eating food containing irritating fungi. The fungi is usually found on the grasses during an unusually hot, wet season, immediately after heat and moisture being conducive to its growing.

SYMPTOMS.

The first symptom usually noticed is a dripping of saliva

from the mouth; inability to graze, sluggishness of the cattle, a slight stiffness of gate and inclination to lie down most of the time. Upon making a careful examination, the mucous membrane would be found inflamed and red, or, if the disease has progressed far enough, small ulcers may be found. The first portion usually affected is the dental pad, which takes the place of the front teeth in the upper jaw; this becomes inflamed and raw, consequently, the cattle are unable to graze, not being able to cut the grass blades, but could eat feed already cut. From this point, if not properly treated, the inflammation will spread until the entire mouth and tongue are involved, becoming raw, making it impossible for the cattle to eat anything. In some cases the outer portion of the lips and nostrils are involved.

In milch cattle, there is a great decrease in the milk flow, heavy milkers may completely dry up in a few days. Small red spots may be seen in the udder and teats. A temperature of 105 degrees F. to 107 degrees F. is frequently seen. If the feet are examined carefully small red spots or ulcers may be seen at the top of the hoof or

between the toes.

TREATMENT.

If the affected animals are on pasture they should be moved to some place where they can be properly treated and fed on bran mash, or other easily masticated food and given plenty of fresh water. In each gallon of water put one teaspoonful of chlorate of potash. The mouth should be well washed two or three times a day with a three per cent. water solution of carbolic acid, or creolin or some other reliable antiseptic. The cattle should be kept in a dry, clean place, in order to keep the feet as free from dirt as possible. The fact should also be washed several times a day with an antiseptic solution. One of the most important things is to see that the cattle get something that they can eat. If constipated, give a pound of epsom salts dissolved in one quart of warm water. If properly treated, the loss should not exceed one or two per cent.

Yadkin County To Work Roads On November 5th and 6th.

The Yadkin Ripple says that the citizens of that county will go out on Nov. 5th and 6th and put in some telling licks on the roads of Yadkin county. The county commissioners and the Board of Education of the county have each issued proclamations to the people of Yadkin calling upon them to go out and do their duty these two days. All of the schools of the county will be suspended on the good road days.

Do You Fear Consumption?

No matter how chronic you cough or how severe your throat or lung ailment is, Dr. King's New Discovery will surely help you: it may save your life. Stillman Green, of Malichite, Col., writes: "Two doctors said I had consumption and could not live two years. I used Dr. King's New Discovery and am alive and well." Your money refunded if it fails to benefit you. The best home remedy for coughs, colds, throat and lung troubles. Price 50c. and \$1.00. Guaranteed.

A Good Farmer.

Mr. Charley M. Williams, of Meadows, paid the Reporter a pleasant call Saturday, and paid for his paper another year in advance. Mr. Williams is pleased with the cash-in-advance plan for newspapers, and says that he thinks the Reporter has done the right thing.

Mr. Williams is one of the best farmers we know of. He raises all his supplies at home, including meat and bread, feed stuff, vegetables, chickens, eggs, etc., and does not have to pay out money for anything except sugar and coffee, the Danbury Reporter and taxes. Mr. Williams is a good roads man, believes in paying his debts, and sleeping with a clear conscience—and this is what it takes to constitute a man according to the old-fashioned standards, and they are the best.

By the way, Mr. Williams made a fine sale of tobacco on the market last week, averaging about 25 cents. He has more to sell, and besides has two good porkers in the pen, which he expects to get 800 pounds of meat out of this fall.

Wood's High-Grade Farm Seeds

Best Qualities Obtainable

We are headquarters for Seed Wheat, Oats, Rye, Barley, Vetches, Alfalfa and all Grasses & Clovers.

Take One Pain Pill, then— Take it Easy.

For Neuralgia, nothing is better than Dr. Miles' Anti-Pain Pills Used by thousands for a generation

Those who have suffered from neuralgic pains need not be told how necessary it is to secure relief. The easiest way out of neuralgia is to use Dr. Miles' Anti-Pain Pills. They have relieved sufferers for so many years that they have become a household necessity.

"I have taken Dr. Miles' Anti-Pain Pills for five years and they are the only thing that does me any good. They have relieved neuralgia in my head in fifteen minutes. I have also taken them for rheumatism, headache, pains in the breast, toothache, earache and pains in the bowels and limbs. I have found nothing to equal them and they are all that is claimed for them."

J. W. SEDGE, Blue Springs, Mo. At all drug stores—25 doses 25 cents. Never sold in bulk. MILES MEDICAL CO., Elkhart, Ind.

TIME OUT DEC. 1ST

Danbury Reporter Will Adopt the "Stop" Plan, and All Subscriptions Will Be Cash-in-Advance.

After a great many years' trying out of the old credit plan, the Reporter will adopt the cash-in-advance system for subscriptions.

Going into effect December 1, 1913, all subscriptions on our books not paid up, will be dropped.

The Reporter is assured by hundreds of its patrons that this plan will be much more satisfactory than the old way of sending the paper on year after year, whether the subscriber orders it or not.

It is a bad business policy to extend unlimited credit for small sums of money.

All subscribers who want the Reporter to come on to their address may settle up in full, and in advance by December 1. Otherwise their papers will be promptly stopped. Hundreds are now doing this, and by December 1st we expect to have a clean list, and but few names dropped.

Please take notice, and attend to this without delay.

Laffargue PIANO

Excels in Purity of Tone and Durability of Construction. Catalogue Free. Write Department S.
