

NO BONDS SOLD YET

Road Commissioners In Meadows and Sauratown Townships Held Meetings.

The township road commissioners in Meadows and Sauratown townships each held meetings last week for the purpose of making arrangements for the sale of the roads bonds in the two townships.

The Meadows township commissioners, Messrs. Geo. Lewis, Will Petree and Stephen Smith, were in Danbury Saturday and met the representative of an Ohio bond-buying firm. The commissioners agreed to sell the bonds to this company but reserved five days to see if a better offer could be had. The representative of the bonding company also reserved five days to see whether or not his company would accept. It is very probable that the sale will be made.

It is learned that the Sauratown commissioners are advertising for bids for the construction of the road from the Meadows township line at J. I. Blackburn's to the Forsyth county line at Dr. E. Fulp's. While they have not sold their bonds they have a number of good offers and will no doubt make a sale before the contract for the road is let.

SOME GOOD ADVICE.

Wheeler James Is Convinced That Sand-Clay Roads Are All Right.

Mr. Wheeler James, a prominent member of the Farmers Union, who resides in the eastern section of the county, was here today attending the county meeting of the Union.

Mr. James is a good roads enthusiast and in speaking of three of the county's townships voting bonds for roads he said that while he would not travel our roads he felt like giving the road commissioners a little bit of advice, and that was that they should by all means make what road they do build permanent by sand-claying or top-soiling it, and of course getting the proper grade so that it will not wash.

While he lives in Stokes, Madison is Mr. James' nearest market and in going to and from that place he said that the great advantage of a sand-clay road had recently come directly under his observation. While the road he travels has been graded for a number of years and is an excellent road in summer, Mr. James said that it was always terrible in winter until the past year when the Rockingham county authorities put sand on it and now Mr. James says that the road is in perfect condition and as smooth as a floor even after long rainy spells.

Mr. Flinchum Thinks It Will Be Unwise to Work Roads Nov. 5th and 6th.

Mr. Editor:

I see our county commissioners have set Nov. 5th and 6th as good road days. Now I don't feel competent to advise them and when the work is done I am ready to help do it, but if that resolution is carried out the roads will certainly be impassable this winter. I suggest that the work be put off until early in the spring in March when freezing weather is over and then the roads will pack and we will have the pleasure of traveling good roads through the summer. If the work is done this winter by spring it will be routed out and washed away and will do no good.

I stand for good roads and expect to help do the work when it is done but I would suggest that we wait until spring to do it.

I hope to hear from some one else on this matter.

Respectfully yours,
ALEX FLINCHUM.
