THE SCHOOL MONEY

State Board Of Education Apportions The \$250,000 Among The Schools.

STOKES GETS \$2,396.30

Mecklenburg County Gets Most, While Dare Comes In For The Smallest Share.

Apportionment of the \$250,000 appropriated by the general assembly of 1913 for the schools of the State was made Tuesday at a meeting of the State Board of Education held in the office of Governor Craig. This fund was created out of the State treasury for the purpose of enabling the schools of the State to fill out the required six months' school term provided for by the legislature of last spring, and was apportioned to the various counties according to the school population within their borders.

The new law provides for the setting aside of five cents on every hundred dollars worth of property in the State that is taxed, and this will be apportioned to the various counties later in the year. The total school fund will then, it is expected, exceed \$100,000 of the \$250,000 apportionment. Stokes county gets \$2,396.30.

Mecklenburg county gets the largest amount, her share being \$7,537.95, while Dare county gets the smallest, her part being only \$180.26.

E. P. Newsom can take your measure and fit you to perfection with a suit that can't be beat for the money. 14 Jan 14

Blue Ridge Mountains Covered With Snow

S. B. Richardson, who resides three miles south of Mt. Airy, has just returned from a trip across the Blue Ridge mountains, giving a graphic description of suffering and inconvenience from what is the heaviest snow ever seen in that section, says a Mt. Airy correspondent, Monday. Mr. Richardson and his wife started down the mountain in a one-horse wagon and encountered snow two feet deep on a level and practically bottomless drifts. They had not proceeded far before the mule and wagon plunged into a drift and it was with great difficulty that the mule was rescued and the wagon still remains buried in a drift.

With great difficulty and danger, the man and wife toiled down the mountain, frequently coming in contact with drifts nearly over their heads, finally reaching the foot of the mountain after a hard eight hours toil. They spent Tuesday night at Low Gap where they secured a buggy and came to this city.

The mountains to the north and west of here are covered with two feet of snow and communication is cut off from that section. The mail carrier from Cana to Nancy Gap, Va., consumed two days in making about ten miles of his route and the cross mountain routes have been abandoned. There is said to be great suffering and inconvenience on the mountain and no trade is reaching this city from that section.

Mr. Silas Hicks, of Meadows Route 1, was here Monday.

Are You One Of Those Who Habitually Catch Cold?

Investigation Shows That Certain Occupations and Professions Are Constantly Prolific Causes For Frequent Colds. What Can Be Done About It?

We read a lot of medical literature that only entertains, but does not instruct. In this strenuous period, when life is put to such a severe strain, we need light and facts how to prevent disease more than talk that entertains.

Do you know that the clerk and the shop girl, the merchant and the professional man, confined to sedentary work, are daily creating those conditions that conduce to colds?

Mental fatigue, worry, heavy strain, nervousness resulting from desk or store work are the easiest means for the development of colds. The average life of a clergyman is less than that of a farmer cause, sedentary work.

Sedentary life, especially where it means the consumption of brain tissue, often leads to over-eating; there is no more common cause of colds than over-eating.

When the digestive organs are weighed down with an excess of food, the liver and kidneys and other important vital organs are overworked, vitality is lower and there is less resistance; slight exposure, which under ordinary conditions causes no harm, results in a bad cold.

To relieve a cold, a good expectorant or cough remedy such as PERUNA should be conveniently at hand to be taken at the very first attack of the cold. But what can be done to stop the frequency of colds to such people that are confined to sedentary work?

Start with a cold water towel bath, walk to your place of business, or devote an hour of each day to outdoor life, take a dose of PERUNA before each meal to tone up your system, eat moderately, retire early and sleep in a room full of fresh air.

Mr. L. A. Richardson, a substantial druggist from Marine, Illinois, commenting on the merits of proprietary medicines, writes as follows:

"I have been engaged in the retail drug business here for the past forty years. During this time I have seen many patent medicines come into use, flourish for one or two years and then gradually disappear. There are very few of these remedies that possess enough real merit to insure them long life. Peruna has always been a good seller with us, with a marked increase from year to year. The change in the formula some years ago, by the addition of the slightly laxative properties, has made it a reliable remedy for constipation and for colds. I take pleasure in urging my brother druggists to recommend it for these two ailments."

Those who wish to begin the cold water towel bath should have a copy of the Pills of Life. Sent free by the Peruna Co., Columbus, Ohio.

Farmers' Union Held Meeting In Danbury Saturday.

The first quarterly meeting of the Stokes County Farmers Union for the year was held in the court house here Saturday. The new officers elected at the last meeting were installed. Quite a number of members were in attendance.

Mr. Samuel Johnson, of Germantown Route 1, who was a Danbury visitor Monday, had the most money to lose a good mule a few days since.

Demand For More Tobacco.

The men who put down new acreage in tobacco in North Carolina last season and who made fine profits out of the venture, will take courage from the opinion given out by the British-American Tobacco Co. that not only is the tobacco growing industry not overdone, but there is a

market for an increased supply to fill the demand for American manufacturers. The experiment in tobacco cultivation in new territory in the State developed the fact that the tobacco growing section, instead of being confined to the old boundaries of cultivation, extends practically all over North Carolina. It promises to give cotton a race for supremacy in the sand hill counties.—Charlotte Observer.

GOOD BYE, 1913

We feel that 1913 should not pass from us without extending to you an expression of our appreciation of the cordial relations that have existed between us and to convey to you our best wishes for a Happy and Prosperous New Year.

BOYLES BROS.

January 1, 1913.

Strong Serviceable, Safe.

THE most reliable lantern for farm use is the RAYO. It is made of the best materials, so that it is strong and durable without being heavy and awkward.

It gives a clear, strong light. Is easy to light and rewick. It won't blow out, won't leak, and won't smoke. It is an expert-made lantern. Made in various styles and sizes. There is a RAYO for every requirement.

Rheumatic Twinges
 SLOAN'S LINIMENT
 Kills Pain
 gives quick relief from chest and throat affections. Have you tried Sloan's? Here's what others say:
Relief from Rheumatism
 "My mother has used one 50c. bottle of Sloan's Liniment, and although she is over 83 years of age, she has obtained great relief from her rheumatism."—Mrs. H. E. Lindleaf, Gilroy, Cal.
Good for Cold and Croup
 "A little boy next door had croup. I gave the mother Sloan's Liniment to try. She gave him three drops on sugar before going to bed, and he got up without the croup in the morning."—Mr. H. H. Strang, 321 Elmwood Ave., Chicago, Ill.
Neuralgia Gone
 "Sloan's Liniment is the best medicine in the world. It has relieved me of neuralgia. Those pains have all gone and I can truly say your Liniment did stop them."—Mrs. G. M. Dooler of Jacksonville, Mich.
 At all Dealers. Price 25c., 50c. & \$1.00
