Five Reasons For Letting Whiskey Alone.

Dr. Henry Smith Williams, of New York, an eminent specialist in nervous and mental diseases, summing up his investigations concerning alcohol and its effects, says:

"I am bound to believe, on the evidence, that if you take alcohol habitually in any quantity whatever, it is to some extent a menace to you. If you do this, I am bound to believe, in the light of what science has revealed:

1. That you are tangibly threatening the physical structures of your stomach, your liver, your kidneys, your heart, your blood vessels, your nerves, your brain;
2. That you are unequivocally decreasing your capacity for work in any field, be it physical, intellectual, or artistic.
3. That you are in some measure lowering the grade of your mind, dulling your higher esthetic sense, and taking the finer edge off your morals;
4. That you are distinctly lessening your chances of maintaining health and attaining long life; and,
5. That you are entailing upon your descendants yet unborn a bord of incalculable misery."

The Fact Remains

No amount of misrepresentation by the peddlers of alum baking powders, no juggling with chemicals, or pretended analysis, or cooked-up certificates, or falsehoods of any kind, can change the fact that

Royal Baking Powder is indispensable for making finest and most economical food.

Ultimatum Given To Tobacco Companies.

New York, March 26.—The four companies into which the tobacco trust was disintegrated by the decree of 1911 have been given until next Monday to present a plan for abandoning monopolistic practices which the

Attorney General considers are in violation of the decree. United States District Attorney Marshall told the attorneys of these companies, at a conference, that the government intended to put an end to present conditions by injunction or other means, but promised to postpone action until Monday, at the request of the tobacco attorneys.

The government is acting upon the complaint of certain independent dealers who charge that a monopoly of the jobbing business in this district, which was enjoyed by the Metropolitan Tobacco Company under the old trust, still exists, and that independent dealers are obliged to buy their tobacco at retail rates.

The corporations represented at the conference were the American, the Liggett & Myers, the R. J. Reynolds, the P. Lorillard and the Metropolitan Tobacco Companies.

Under the terms of the dissolution decree the Federal Court still retains jurisdiction of the tobacco trust case.
