**LET YOUR MONEY HELP YOU WORK.**

The Windham City Savings Bank in Connecticut recently had a bank book brought in that they had not seen for nineteen years and on which no money had been drawn or deposited since 1871. In that year, \$800 was deposited. Compound interest had increased the \$800 to \$2,300 — \$1,500 clear gain to the depositor, money he didn't have to turn his finger over for. This illustrates the wonderful power of compound interest. After you work for your money, your money works for you, if you put it in a good bank.
