MY PRICES ARE RIGHT

JOHN R. SMITH,
Walnut Cove, N. C.

Do you raise early or late potatoes?

There's a difference between early and late varieties that should be considered in fertilizing. For the early kind use 1,000 pounds per acre of a fertilizer containing 10%

POTASH

5% ammonia and 8% phosphoric acid. Under average conditions, 800 pounds of 3-6-8 is the most profitable for late crops. Some growers double these amounts, for they are convinced that Potash Pays.

Caution: Be sure your Potash for potatoes on heavy soil is in the form of Sulfate.

Write for Potash prices and for free books with formulas and directions. We sell any amount of Potash from a 200-pound bag up.

KEIGER - HUNTER

Pretty Marriage of Popular Young Couple At King.

King May 15. — One of the prettiest weddings of the season was celebrated at 3 o'clock last Tuesday afternoon, May 12th, at the home of Mr. and Mrs. S. T. Keiger, of King, when their charming daughter, Miss Addie May Keiger, became the bride of Mr. Clyde C. Hunter, of Tobaccoville.

The home was beautifully decorated in palms, ferns and cut flowers which made a most fitting setting for the ceremony that joined these two lives. Before the ceremony Miss Mallie Redman, of Pilot Mountain, softly rendered "I Love You Truly" and "Oh! Promise Me." Then to the winsome strains of Mendelssohn's wedding march came the bridal party. First, the ring-bearer, little Master Thamer Keiger, carrying the ring in the dainty petals of a lovely bridal rose; then followed the maid of honor, Miss Pearl Jackson, of Mt. Airy, in lovely attire of white shadow lace over white silk batiste, carrying pink carnations and maiden hair ferns; after which came the groom with best man, Mr. Clinton Sprinkle, of Winston-Salem. Then with slow steady tread came the bride leaning on the arm of her brother, Mr. Will R. Keiger, who gave her away. The bride wore white crepe de chine trimmed in duchess lace and pearls with bridal veil, and carried a bouquet of bride's roses. In the stillness of this scene, Rev. A. O. Lindley, the bride's pastor, in an impressive ring ceremony made them one, the bride and groom kneeling on a white satin cushion beneath an arch of roses for the benediction prayer. Congratulations were received in the hall, then all prepared for the attractively decorated dining room where delicious refreshments consisting of cream, cake and fruits were served by Misses Majorie Jackson, Lula Madearis and Mrs. L. Holland, the color scheme pink and white being carried out.

The display of beautiful presents and the large number of friends and relatives, there go to prove the extreme popularity of the couple.

Amid a shower of rice and old shoes the happy couple left in their machine for Winston-Salem, where they boarded the train for Washington, Baltimore and other northern cities.

Work on the fine steel bridge that will grace the new sand clay road across the deep hollow just south of Danbury, lessening the distance to the markets a quarter of a mile, and relieving the farmers of a hill-pull which has for a century been a terror to wagoners, goes rapidly forward. Mr. R. R. King, the efficient builder, has an engine and a concrete mixer at work which does business.

Keep Bowel Movement Regular

Dr. King's New Life Pills keep stomach, liver and kidneys in healthy condition. Rid the body of poisons and waste. Improve your complexion by flushing the liver and kidneys. "I got more relief from one box of Dr. King's New Life Pills than any medicine I ever tried," says C. E. Hatfield, of Chicago, Ill. 25., at your Druggist.

Republican Executive Committee To Meet.

Greensboro, May 14.—John Morehead, chairman, and Gilliam Grissom, secretary, have just issued a call for a meeting of the Republican state executive committee to be held in Greensboro on Tuesday, May 26, at 2 o'clock p. m. The meeting will be held in the parlors of the McAdoo Hotel.

This committee meeting will be held for the purpose of designating the time and place for the next Republican state convention and for any other necessary business. The following additional statement is made by the chairman and the secretary:

"In view of the existing differences within the party, as between regular Republicans on the one hand and progressive Republicans on the other, the call for the state convention is a matter of importance.

"It has been deemed both opportune and expedient that men who are still sympathetic to Republican principles of protection and to the prosperity of our whole country, which abounded under the wise Republican administrations of McKinley and Roosevelt and of Taft, be invited to attend and participate in this committee meeting, which invitation the chairman herewith extends and asks that you join in extending.

"Your attendance, as well as of your friends, is earnestly requested, to the end that a full discussion of party matters may be had with the purpose and hope that all differences within the party may be reconciled and that a solid front of all who hold anti-Democratic sentiments may be presented.

"Furthermore, in the irresistible rising tide all over the country in favor of a return to protection and prosperity we must see that the voters of our state be given the opportunity of the fullest expression of awakening patriotic news.

"Awaiting a favorable reply, we are," etc.

News of Brim.

Brim, May 15.—Mr. and Mrs. C. W. Simmons visited Mr. and Mrs. J. M. Chilton Sunday.

NOBODY'S SWEETHEART.

Stand Up Straight and Avoid Tuberculosis

The first essential in the avoidance of tuberculosis of the lungs, or consumption, is to keep the lungs strong, so that if the germs are breathed they can do no harm. One of the most important things in keeping the lungs strong is to keep the chest wide open so that the lungs can be properly used. If the body is drooped or stoops, or if the shoulders are allowed to drag forward (round shoulders), or if the head is carried forward instead of well back over the shoulders, the chest must be flattened, the breathing must be shallow, and the lungs, not being freely used, become weak. It is in this type of chest that tuberculosis usually begins. The consumptive is usually narrow-chested, with drooped shoulders and with the head craned forward. While the development of a strong, well-formed chest is one of the most important factors in preventing tuberculosis, the same thing is to be desired if the disease has once started. Not only should we live in the open, but we should stand up straight and learn to "throw a big chest," so that the lungs can grow strong and the fresh air be taken in. The runner, the singer, or any one who is obliged to make sustained effort is taught to stand and sit with chest high so that the lungs can be used to the best advantage, and if every one would do the same thing there would be less tuberculosis because there would be fewer weak lungs.

Democratic Convention at Danbury Saturday, May 30.

Notice is hereby given to the Democrats of Stokes county to meet in the court house at Danbury on Saturday, May 30, 1914, for the purpose of electing delegates to the State, Judicial and Congressional conventions, for the purpose of fixing the date for the regular county convention, and for the transaction of such other matters as may properly come before the convention. This April 30, 1914.

MR. LEWIS A. RIFFLE tells his experience with coughs and colds that lead to nervousness and debility.

Mr. Lewis Riffle. Colds are often aggravated during the Summer because inactive bowels and a stomach out of order are prime causes in keeping a cold from getting well.

Pe-ru-na has very beneficial laxative qualities that neutralize such conditions. Its tonic ingredients tone up the system, and thus invigorate the stomach's functions to normal activity.

Mr. Riffle's experience is especially interesting at this time of the year because it shows the close relationship there is between a nervous breakdown and a neglected cold.

Pe-ru-na should be kept in the home at all times, that a cold upon its first appearance may be treated promptly and successfully. This often saves money and time, and what is more important, a great deal of vitality.

Mr. Riffle, of 758 Gautenbein Ave., Portland, Ore., writes: "I have found Pe-ru-na a most remarkable medicine for building up the system and for curing coughs and colds."

"I took it for four weeks a few months ago when I was all run down, nervous and debilitated, and it quickly restored my health."

"I always keep it on hand, as a few doses will cure a cold if taken in time." People who object to liquid medicines can now obtain Pe-ru-na Tablets.

News Of Walnut Cove Route 1.
