BIG TOUR COMING

From One Hundred To Two Hundred Cars Expected At Piedmont Saturday Afternoon.

BLAZING THE WAY

Scout Car Representing The Auto Association, The Garages, Etc., Visited The Springs Tuesday—Request to Clear the Track.

The big Piedmont Springs tour of the Winston-Salem Automobile Association will be made next Saturday evening, June 27, provided too much rain does not occur to render the road impracticable for the run. Tuesday Messrs. Jas. A. Gray, Jr., President of the Winston-Salem Automobile Association; Powell Gilmer, of the Motor Company; Paul Montague, of the Montague Garage, and Mr. Shore, of the Cadillac Garage, came up in the scout car to inspect the route, and make the necessary arrangements at Piedmont Springs hotel for the accommodation of the tourists. From 500 to 1000 persons it is expected will lunch at the hotel. The scout party erected danger signs at all important curves and hills, to warn drivers to go slow. The cars will begin to be checked out from Winston-Salem at 1 o'clock P. M., one-half minute apart. This means they will begin arriving at Piedmont about 11 P. M. Each car will be numbered, and no one will be allowed to pass another, unless some accident should put the car in front out of commission.

This is the biggest advertising event in the history of Stokes county, and hundreds of people will witness the passing through of the motor cars with intense interest. There will easily be \$100,000 worth of machines in line. The automobile people are very anxious that there should be no accidents, and they request through the association that a clear track may be given the cars as they come through.

It is estimated that each car will carry five passengers on an average. This means the tour will bring from 500 to 1,000 persons. It will be a very interesting pageant, and one that will live long in the memory of our people.

If a person desires to know what the Agricultural and Mechanical College is doing for the State, a trip through any section will reveal its work. On our farms, in our dairies, in our orchards, in our cotton mills, and machine shops, in our light plants, in the surveying parties of our railways, everywhere that progressive industrial operations are under way, you will find men who were fitted at this busy common-sense College. More and more each year ambitious young men are training their steps to West Raleigh for life training. The fall announcement appears elsewhere in this paper.
