## Demonstration Work.

Editor Reporter:

A number of farmers while attending the meeting of county commissioners Monday took time to call at the county demonstrator's office and discussed various subjects pertaining to better farming, especially the question of producing cheaper pork. The usage of more green pasture for the growing of pork.

The farmers are urged to take advantage of the coming high prices of feed by the sowing of more grain crops. Sow mixtures for mowing, appler oats, wheat and crimson clover or hairy vetch makes a splendid hay crop, and a heavy yielder. Or if you want two mowings next spring and have a rich plat, sow rye, appler oats and crimson clover, and if cut at proper time you'll get two cuttings.

## STOP, LOOK, LISTEN.

### Engineer Glenn Says Drivers Fail to Observe Highway Regulations.

Greensboro, Sept. 4.—Many automobile drivers are daily "flirting with death" by failing to observe the highway regulations, "stop, look, listen," when approaching railway crossings, declares Engineer M. C. Glenn, of Southern Railway, who makes a plea that people using the public roads take some consideration of the feelings of engineers as well as be more careful of their own safety.

"Yesterday I was engineer on Southern Railway train No. 108 and at Williams Crossing, which is about four miles west of Raleigh," says Mr. Glenn, "I only missed striking an automobile about two seconds, and in this automobile were grown people and children. If I had struck the automobile and killed or injured those people some one would have said that the engineer failed to blow, etc., when in fact, I had just sounded the whistle for Thompson, answered a signal from the conductor, and had blown a road crossing signal. The bell was ringing also, but the driver of the auto evidently did not hear any of the signals for when I came in sight of him which was for a short distance on account of a curve in the track, the driver averted a collision by suddenly cutting his car to the right and I passed within 10 or 12 feet of him."

Mr. Glenn calls attention to the fact that if drivers of automobiles and other conveyances would observe the rule, "stop, look, listen," when approaching railroad crossings they would safeguard their own as well as other people's lives to say nothing of the property loss in case of accident.

## MEADOWS ROAD WORK

Camp Moved Near I. G. Ross' Store—Road To Be Completed From Germanton To Meadows Postoffice.

It is learned here that the road work in Meadows township is progressing rapidly now and that the road leading from Germanton to Meadows postoffice has been completed almost as far this way as I. G. Ross' Store, to which point the camp of the road workers was moved the past week.

A gentleman who has recently talked with some of the road commissioners informs us that it is their intention to complete the road from Germanton to Meadows postoffice just as soon as possible, which will probably be about sixty days. This road will touch the Forsyth county line at its southern end and the Danbury township line at its northern end.
