Sow Crimson Clover and Save Fertilizer Bills

The indications are that prices of fertilizer the coming season will be much higher than usual, owing to the fact that the supply of fertilizer materials will be largely cut off on account of the European war. This should cause farmers everywhere to put land in crops that will save fertilizer bills. Nothing will do this better than Crimson Clover. It is unquestionably one of the best soil-improvers that can be put in, and wherever it is grown, it gives largely increased crops of corn, cotton and tobacco.

We have secured more liberal supplies of Crimson Clover than was expected and will be able to sell at much more reasonable prices than was anticipated.

WOOD'S CROP SPECIAL gives full and interesting information about the fertilizing value of Crimson Clover; also about other seeds for fall sowing. Write for Crop Special and prices of any seeds required.

T. W. WOOD & SONS, Seedsmen, - Richmond, Va.

YOUR attention is respectfully called to an important point not generally known, that a laxative should have a tonic element to successfully meet constipation.

Mr. John B. Capers, of 619 Pecan St., Fort Worth, Texas, had a significant experience in this particular. He was afflicted with a severe case of constipation and bowel trouble. He spent a good deal of money in trying to find a remedy. To his astonishment, Peruna very quickly relieved him of his bad symptoms.

This happened a number of years ago. Since then, Mr. Capers states that he has had similar attacks of trouble, the prominent symptom of which is constipation, and has always found prompt and efficient relief from Peruna. He says: "Up to the time I started using your Peruna I could drink castor oil like water. It did no good. As for salts, they were of no use. Physicists of all kinds and classes were used, but we had to call on the fountain syringe for help. Peruna was able to correct this condition completely in Mr. Capers' case, and there is every reason to believe that it was the tonic qualities of Peruna, added to the laxative qualities, that procured this very desirable result."

KILLED BY A MULE

Mr. Charles Redman, Stokes County Citizen, Meets Sad Fate.

DIED IN WINSTON

Deceased Was Kicked in the Breast and Never Regained Consciousness—Son of A. R. Redman.

Mr. Charles Redman, of Germantown, was fatally injured at Farmers' Warehouse in Winston-Salem Tuesday, when he was kicked in the breast by a mule in the hitching stables of the warehouse. No one witnessed the accident, and Mr. Redman never regained consciousness sufficiently to make a statement as to how the accident occurred. When found he was on the ground near a pair of large mules, and it was believed that one of these inflicted the death injury.

Medical aid was summoned at once when the wounded man was found, and he was rushed to the Twin-City hospital, where it was found that his injuries were fatal and death resulted about 4 o'clock.

Mr. Redman was about 34 years old and was generally popular throughout his section of the county. He is survived by his parents, Mr. and Mrs. A. R. Redman, and one sister, of Germantown.

Growing Wheat.

A Stokes citizen here this week in speaking of the advance in the price of wheat told the Reporter that it would help him, as last year he produced enough wheat to supply his family four years, and he has grain to sell for seed. This farmer has only a medium sized farm and works only two mules, and if he can produce enough wheat for his own consumption for four years, why can't any farmer make enough for at least one year? Then high prices will help us.
