Revenue Officers Found 68 Blockade Distilleries

It is announced that during the month of September the revenue officers of North Carolina and a portion of South Carolina destroyed a total of 68 illicit distilleries. Of these 41 were in the fifth district of North Carolina, which is the territory in the western part of the state. Seven of these were in eastern North Carolina, of the fourth district, and 20 were in South Carolina. The month had an increase of four destroyed over August.

The practice of piling tobacco stalks in heaps and leaving them exposed to the weather means a waste of valuable material that might be returned to the soil. The practice of burning them is also wasteful, unless they are infected by such a serious disease as the Granville wilt.

CONSUMPTION TAKES 350 PEOPLE DAILY

Over 350 people succumb to consumption every day in the United States. Science proves that the germs which thrive when the system is weakened from colds or sickness, overwork, confining duties or when general weakness exists. The best physicians point out that during changing seasons the blood should be made rich and pure and active by taking Scott's Emulsion after meals. The cod liver oil in Scott's Emulsion warms the body by enriching the blood; it peculiarly strengthens the lungs and throat, while it rebuilds the resistive forces of the body to avoid colds and prevent consumption. If you work indoors, tire easily, feel languid or nervous, Scott's Emulsion is the most strengthening food-medicine known. It is totally free from alcohol or any stupefying drug. Avoid substitutes. 14-42 Scott & Bowne, Bloomfield, N. J.

"After Using Peruna Many Years"

I can say that Peruna is a fine remedy for catarrh and diseases of the tonsils and many other ailments. It is manufactured by a well-known company, who are perfectly reliable.
A Tonic with slight laxative qualities.
"I have noticed a great many others taking this remedy, and I have yet failed to see a case where the continued use of Peruna did not complete a satisfactory cure in reasonable time."

Obituary

James M. Burge was born in November, 1837, and died August 19, 1914, making his stay on earth 76 years and 9 months. He was married to Mary J. Smith, who preceded him to the grave one year and seven months. Unto this union was born thirteen children, nine boys and four girls, of which ten are still living.

Mr. Burge's fatal disease was paralysis. We done for him all that loving hands could do but nothing seemed to do any good. He was laid to rest beside his beloved companion at Snow Creek church. He was a kind and devoted husband and a good neighbor, one that will be greatly missed. He was strictly honest, sober, industrious and correct in all transactions. He claimed a hope in Christ but never united with any church. He highly respected the Primitive Baptists and loved to have them visit his home. He devoted much of his time in his last days to reading his bible.

A chair is empty now,
A man we loved is dead
We trust he's where the Saviour is,
Where no farewell is said.
We hope he is happy,
With his angel plumage on,
But our hearts are very desolate,
To think that he is gone.

We loved him, yes, we loved him,
But angels loved him more,
And they have sweetly called him,
To yonders shining shore.
The golden gates were opened,
A gentle voice said come,
And with farewell unspoken,
He calmly entered home.

PEARLEY E. SMITH.

Pitcher Carl Ray has been drafted by one of the higher class leagues. The only information received here was a check for \$300 and the statement that it was for the Twin pitcher. It is believed that the club is either one of the Southern or Texas leagues.—Winston Sentinel.

What Would You Do?

There are many times when one man questions another's actions and motives. Men act differently under different circumstances. The question is, what would you do right now if you had severe cold? Could you do better than to take Chamberlain's Cough Remedy? It is highly recommended by people who have used it for years and know its value. Mrs. O. E. Sargent, Peru, Ind., says, "Chamberlain's Cough Remedy is worth its weight in gold and I take pleasure in recommending it." For sale by All Dealers.

BANKS HAVE LARGE RESERVE

Nearly \$6,000,000 More Than is Required by Law is Being Held in Banks of North Carolina at This Time.

Raleigh, Oct. 14.—A summary of the resources and liabilities of the State, private and savings banks of North Carolina at the close of business, September 12, with comparisons with the showing made in reports one year ago was issued today by the Corporation Commission. Also a definite statement showing the "reserve" at this time, this latter item being \$12,037,261, or approximately 26.75 per cent. The reserve required by law for checking and savings deposits amounted to \$6,177,664, giving an excess in reserve held by the banks of \$5,859,596.

It also appears that the banks have cash on hand in excess of the requirements of law aggregating only \$23,578, the cash on hand amounting to \$2,494,644. Total assets and liabilities of the banks are shown to be \$89,302,068, a decrease of \$1,798,460 over the assets and liabilities reported a year ago.

Deposits at this time are: Time, \$11,161,449; subject to check, \$28,300,093; demand certificates of deposits, \$4,339,118; savings deposits, \$14,216,137. During the year time deposits increased \$926,342 and savings deposits increased \$1,007,475. There was a decrease of \$8,892,847 in deposits subject to check.

Sow Crimson Clover and Save Fertilizer Bills

The indications are that prices of fertilizer the coming season will be much higher than usual, owing to the fact that the supply of fertilizer materials will be largely cut off on account of the European war. This should cause farmers everywhere to put land in crops that will save fertilizer bills. Nothing will do this better than Crimson Clover. It is unquestionably one of the best soil-improvers that can be put in, and wherever it is grown, it gives largely increased crops of corn, cotton and tobacco.

We have secured more liberal supplies of Crimson Clover than was expected and will be able to sell at much more reasonable prices than was anticipated.

WOOD'S CROP SPECIAL gives full and interesting information about the fertilizing value of Crimson Clover; also about other seeds for Fall sowing. Write for Crop Special and prices of any seeds required.
