Our Chance in Case Of a Possible War

If this great nation is at the mercy of any invader, as some former army officers are saying, why is it that three real invaders—Russia, France and Great Britain—are unable to crush poor little Turkey and capture Constantinople right off the reel? They are on the ground. A great ocean does not lie between them and their feeble prey, yet the road to Constantinople, short as it is, is no joy ride.

New York and Boston are defended by better and heavier guns than the Turks possess. In spite of all that our alarmists say, a hundred thousand soldiers can be landed quickly or easily at any unprotected point along our coast.

Ocean transports need ocean ports. Before an invading army can be landed in this country, a suitable port must be captured.

No great power except the British empire can drive our navy from the seas, and we hold Canada as a hostage for peace in that quarter. War with great Great Britain is the remotest of all possibilities. With her neutral, no other power or combination of powers could get near us except in the Philippines. We are to have combined army and naval maneuvers near New York this summer. Let the experiment be tried of landing troops from ocean-going ships at some undefended point along our coast and let the newspaper reporters see it done. When the time is recorded and the number of men landed is counted, we will stop worrying about finding an army of a hundred thousand horse, foot and artillery dumped on our coast overnight. If an army did land in this way at some unprotected point and a storm came up, it would starve in a week. No foreign power will ever take the risk.

Our army system should be reformed by doing away with inferior posts. Our regulars should be kept where they can do the most good and our militia system needs reorganization; but these things do not entail added expenditures, they simply call for the honest and wise spending of the present appropriation of a quarter of a billion dollars a year for defense. That is a large sum—more than this country ever spent in the time except in time of war—and we should be getting better results if a tithing of what some of our retired army and navy officers say is true.—New York Commercial.

Restored to Good Health.

"I was sick for four years with stomach trouble," writes Mrs. Otto Gans, Zanesville, Ohio. "I lost weight and felt so weak that I almost gave up hope of being cured. A friend told me about Chamberlain's Tablets, and since using two bottles of them I have been a well woman." For sale by all dealers.

WHAT CATARRH IS

It has been said that every third person has catarrh in some form. Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building-tonic, free from alcohol or any harmful drugs. Try it. Scott & Bowne, Bloomfield, N. J.

Billious Attacks.

When you have a billious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and a terrible headache. Take Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. They only cost a quarter. For sale by all dealers.

CALOMEL WHEN BILIOUS? NO! STOP! MAKES YOU SICK AND SALIVATES

"Dodson's Liver Tone" Is Harmless To Clean Your Sluggish Liver and Bowels.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quick-silver which causes necrosis of the bones. Calomel, when it comes into contact with your bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight on my guarantee.

Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver Tone. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not silitate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is choking your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.
