Mr. O. N. Petree, of Walnut Cove, was in town today and paid us a pleasant call, and told us something of his trip to the 'Frisko Exposition, from which place he has just returned. Oscar made the trip as the guest of the Prudential Insurance Company with some forty or fifty others of the company's officials who had sold \$100,000 worth of insurance. The trip was great but he enjoyed the scenery enroute more than the sights at the end. The grand canyon was one of the most impressive things, where you look at the ditch 6,000 feet deep which the Colorado river has worn through the solid rock of the mountain. The vast deserts, the praries, the great cities of the wild and wooly west, the sands, the salt lake, and other interesting sights were incidents of the journey.

Mountain Park.

Mountain Park, June 14.—Dr. J. B. Hubbell came in a few days ago from New York. He has been there taking work at Columbia University. Arrangements have been made for Dr. Hubbell to teach English at Mountain Park this summer. He will give a review of English Grammar and do whatever else he considers to the best interest of the teachers. It is expected that he will teach a class of about one hundred students, the greater part of which will be public school teachers. The people of Mountain Park and the students of the school are delighted to have Dr. Hubbell here and to have him for an English teacher.

The school here continues to grow. The superintendent says that he is sure that the number of boarding students enrolled this year will pass the two hundred mark. The carpenters are busy all the time. Every effort possible is being put forth in order that more students may be accommodated.

A number of beautiful building lots at this place will be sold on June 25th. We understand that the property will be allowed to go for what it will bring. The terms will be easy, thus enabling any person who desires a home now or at some future time in a good school community to have it. It is expected that each of the teachers and a number of the students will take advantage of the opportunity.
