Dr. and Mrs. C. W. Joyce and children expect to leave for their home in Fletcher, Oklahoma, today, after visiting relatives here for several weeks.

Farmers are now busy cutting and curing tobacco. The general opinion is that the crop will be sweet and good. A great improvement has taken place in the quality during the last two or three weeks.

The county superintendent of health of Guilford county reports that the water of ninety per cent. of all the wells and springs in Guilford county contain typhoid fever germs. He is urging the people to boil all of their drinking water.

The ice cream supper given by the ladies on the lawn of the M. E. church here Saturday night was largely attended and quite a nice sum was realized which will be used for church purposes. A great many of the Walnut Cove people were in attendance, eight or ten machines full coming over from that place.

Mr. J. B. Martin, of Stuart, Va., was a visitor here this week. Mr. Martin has invented an attachment for an automobile which he thinks will be very valuable. He will not make public the nature of the attachment until he secures patents upon it. Mr. Martin stated that he expected to buy a machine right soon and will put his patent into use in the near future and demonstrate to the public its usefulness.

Mr. W. Hardin Flinchum, of Danbury Route 1, will remove soon with his family to Pilot Mt. to reside. He will farm with his brother, Mr. John Flinchum, who resides near Pilot Mt. Mr. Flinchum will rent his farm near Danbury to Mr. A. A. Nelson.

**Corn Is King This Year.**

The corn crop of the South this year, not counting South Carolina and Florida, is 778,500,000 bushels, says the Federal Department of Agriculture. Cotton has at last dropped into second rank in the South.

It is 176,000,000 bushels more than last year's crop, and nearly 250,000,000 bushels more than our five-year average since the census year.

Unfortunately our crop in North Carolina is some three and a half million bushels less than that of last year.

It will be better to feed our surplus corn to pigs than weevils; better to turn it into hams, shoulders and bacon—butchered, trimmed, cured and sacked, fly and skipper proof, packer style—than to sell it without profit as raw pork in the winter time; better to market it gradually in finished form in the parcels post than to sell it for a song as corn. There is small profit in any raw farm product. The margin is larger when it is converted into finished products—cream, butter, cheese, ham, bacon, and shoulders and the like.

We need these farm industries in the South. And now is the time to hasten their development.

**Notice of Sale of Real Estate.**

By virtue of a decree of the Superior Court of Stokes County, N. C., rendered on the 2nd day of August, 1915, in the special proceeding entitled "Harriett Lankford, and others, Ex-parte," I will expose to public sale to the highest bidder for cash, at the court house door in the town of Danbury, N. C., on Monday, Sept. 6th, 1915, at the hour of one o'clock p. m., a tract of land on the waters of Camping Island Creek, in Danbury township, Stokes county, N. C., containing 140 acres, more or less, and bounded as follows:

"Beginning at a poplar, corner of the Watson Collins grant, (now N. A. Martin's land), and runs west on said Martin's line to Camping Island Creek at a large rock, thence up said creek as it meanders to the mouth of the branch where James Nelson and William Nelson now live, (formerly lived) thence up said branch as it meanders to its head near the ridge road, thence due North to the crest or top of the Sauratown mountain at a rock, thence East to a stake directly North of the beginning poplar, thence South falling on the James A. Pepper tract and the late Dr. D. C. Pepper tract to the first station, the aforesaid poplar and Watson's corner." See deed from Archilus Fry to Harriett Lankford, et al, Register's Office, Stokes County, Book 41, page 366.

This the 2nd day of August, 1915.  
N. O. PETREE,  
Commissioner.
