Mount Airy News.

Furniture Factories Are All Working Over Time Good Roads Work.

Mount Airy, Oct. 1.—The furniture factories of Mount Airy are now working from two to three hours over time to fill orders. With the granite quarry busy and the outlook for business good and with crops fine in this section, the voice of the calamity howler is lost in the quickening prosperity.

The work of grading the new road in Dobson township is progressing well. Almost all of the road between Mount Airy and Dobson is now graded and in a few weeks there will be to the county seat a modern, graded sand-surfaced road.

Births and Deaths Must Be Reported.

Raleigh, N. C., October 2.—The Bureau of Vital Statistics of the State Board of Health has closed a contract with Mr. J. A. McIntyre, of Mount Olive, wherein the latter becomes prosecuting agent for the Vital Sta-

tistics Bureau in North Carolina. Mr. McIntyre is ex-deputy sheriff of Wayne county, a former local registrar, and a young man fully equipped for this particular work. He starts on his first trip Monday, October 4, to visit those counties where incomplete registration is suspected. His itinerary will be arranged altogether by the Bureau of Vital Statistics in accord with those counties reporting low death rates, that is to say those counties that rest under suspicion of incomplete registration. Mr. McIntyre will travel by motorcycle, which will enable him not only to hold down traveling expenses, but to reach the remote districts of the State.

"The State Board of Health is determined to enforce the State registration law," declared the Secretary of the Board. Mr. McIntyre's continuance in office will be based on his ability to find entanglements of this law and to secure convictions. In addition to knowing where people are dying and the relative importance of the various causes of their deaths, the Board proposes to secure good standing with the United States Bureau and will employ county and district agents in addition to the State agent, to find and prosecute violators of the Vital Statistics Law.

Mr. James T. Moore, manager of the Peters Creek Milling Co., at Smith, was a business visitor here Saturday.
