### Children First.

Whoever in the world was it started the superstition, myth, legend, fairy story or just plain lie, that the best time to have contagious and infectious diseases is during childhood?

Vital statistics can be quoted to show that a vastly greater proportion of deaths occur among children having whooping cough, measles or scarlet fever than among adolescents or adults.

Children must be protected from "catching" these diseases. Not only must there be quarantine but it must be rigidly enforced. Every good citizen will see that children are given the right to their physical heritage—good health.—University News Letter.

### Why You Should Use Chamberlain's Cough Remedy.

Because it has an established reputation won by its good works.

Because it is most esteemed by those who have used it for many years, as occasion required, and are best acquainted with its good qualities.

Because it loosens and relieves cold and aids nature in restoring the system to a healthy condition.

Because it does not contain opium or any other narcotic.

Because it is within the reach of all. It only costs a quarter. For sale by all dealers.

A rural mail carrier a short way out of Newport, Carteret county, was held up nearly two hours by a big alligator lying in the road. The carrier fired his revolver several times to no avail but a shot gun dispatched the 'gator.

At the meeting of the National Democratic Committee in Washington on Tuesday Thos. J. Pence, a North Carolinian, was chosen national secretary, and it is assumed when the national convention meets, his election will be ratified.
