The Tobacco Trust.

We find the following paragraph in the New York market reports of December 4:

"At the end of the week, the R. J. Reynolds Tobacco company declared an extra 10 per cent. dividend. It is said that their earnings will show in the neighborhood of 40 per cent. The market closed the week with a slight recovery from its low."

When times were normal and the world at peace, the big tobacco companies were satisfied with 20 per cent. We were disposed to sympathize with them in the face of unsettled conditions abroad, believing it impossible for them to market the great bulk of tobacco, but now that their earnings are in the neighborhood of 40 per cent. makes the opening day of the Oxford market the more glaring. It is nothing short of a shame. There is but one way to meet such a one-sided game. Stop planting tobacco and let the machinery of the octopus go to rust.—Oxford Public Ledger.

Germanton Porkers.

Mr. R. J. Petree, of Germanton, reports the killing of a porker at his home weighing 520, and Mr. A. H. Rutledge, also of Germanton, killed two, one weighing 462 pounds and the other 392.

The Republicans of Rockingham county will hold a convention to select delegates to the Republican State Convention to meet in Raleigh early in March.

Why You Should Use Chamberlain's Cough Remedy.

Because it has an established reputation won by its good works.

Because it is most esteemed by those who have used it for many years, as occasion required, and are best acquainted with its good qualities.

Because it loosens and relieves cold and aids nature in restoring the system to a healthy condition.

Because it does not contain opium or any other narcotic.

Because it is within the reach of all. It only costs a quarter. For sale by all dealers.

Matches.

The match is designed to start fires. It does.

A single match may cause the burning of a city.

Most fires are of the same size when they start.

A thoughtful husband or father

will have no matches in his home except those which light only on the box. Such matches if accidentally dropped or secured by young children, cannot be ignited on any ordinary surface. Hundreds of baby children are burned to death every year, playing with the "strike anywhere" match.
