

A Better Fertilizer WILL PRODUCE A Better Crop

1. Have you given CAREFUL CONSIDERATION to the question of Fertilizers for your grain, tobacco, etc.?
 2. Have you been using a Fertilizer that gives YOU SATISFACTORY RESULTS?
 3. Would you use a different fertilizer if your yield per acre could be increased?
 Ask yourself these questions. They mean much to YOU. INCREASED YIELD per acre means INCREASED PROFITS.
LISTEN! "Union Brands" of fertilizer are now being used EXCLUSIVELY by many of the most successful planters in Virginia and the Carolinas. These fertilizers are made from the best materials known to the business. They are mixed with the most improved machinery, and results in the field have PROVEN the superior "crop producing" qualities of these goods. Having "made good" for others, they will do the same for you
IMPROVE THE QUALITY OF YOUR TOBACCO; INCREASE THE YIELD PER ACRE OF YOUR CROPS BY USING "UNION BRANDS."

Books As Disease Spreaders.

It has recently been proven by a number of research laboratories that books are not as vile disease spreaders as they were once thought to be. It has been found

that "although a book may be grossly infected by a tuberculosis patient and while that infection may remain active for at least a few days, the infection does not survive a period of one month."

COUNTRY SCHOOL IN JANUARY

Observe Community Service Day If Not Already Done --Work to Improve Your Library.

In case your school has not observed North Carolina and Community Service Day it would be well to observe it during the month of January. The bulletin was not sent out on time for quite a number of counties to observe it on the date designated and in such counties the teachers are expected to have the exercises at some convenient time later on in the session. It really matters very little as to the date of these exercises; the important thing about the matter is to see that it is observed. Announce the date several days in advance, invite the patrons of the school to come out, endeavor to have each pupil participate in some way. This pleases the parents as well as the children, and tends to beget in them a state pride and a love for their native heath that nothing else can so easily do. It would be well for the county superintendent of schools to look after the observance of this day in all of the schools under his supervision, and to require the teachers, or principals rather; to report promptly after the exercises are held.

HAVE YOU "SUPPLEMENTED" your school library during the present term?—that is to say, added any extra, mites? If not there is no better time to do it than during this month. If you really want to supplement the library, there is a way to do it, even if the six supplemental libraries to which each county in the State is entitled during biennial period have already been taken. There is a provision in the school law which enables any county to secure any of these supplemental libraries which have been neglect-

ed and forfeited by other counties at the close of each fiscal year immediately prior to the meeting of the General Assembly. There has always been in the past an ample supply of the forfeited supplements to meet the demand for them. See your county superintendent or county board of education and have them advance the necessary five dollars which the county is required to give you in order to secure the state appropriation for this purpose and it will be promptly refunded at the close of the fiscal period mentioned above. Bear in mind, however, that your library can be supplemented only once in two years. It is always easy to raise the necessary funds for improving your library if you really want to do it. Have an entertainment of some nature. You will always find plenty of people ready to patronize your undertaking if you will only go about the work tactfully and advertise the occasion sufficiently and far enough in advance of the time. Are there any teachers opposed to entertainments? Then if so, there are other means at your disposal. Try a subscription list. Head this list with the amount you are willing to give,

then circulate it among the school committee and the patrons of your school, and we think you will find it easy enough to raise the required amount. I know one county in the State where practically all the teachers of the entire county pledged themselves to donate the amount of

one day's salary for this purpose. In conclusion, allow me to suggest that this work is not one confined to the teachers alone, but is one in which the patrons, pupils and the friends of education in the district may all join.—N. C. Bulletin.

Gorrell's --- WAREHOUSE --- Farmers

THE GORRELL'S

"All the Time."

OPENING ANNOUNCEMENT

To the Tobacco Growers:

Our sales opened up January 3rd and we are glad to tell you that the market was stronger than during the closing weeks of December. The buyers were all out and showed a strong disposition to buy, this being especially noticeable on the common tobaccos. We expect prices to at least hold their own for some time.

All indications point to heavy breaks for some time now. We want you to come to see us with your next load.

Remember, we GUARANTEE you the highest prices, a first sale each day and will do our best by every pile you sell with us.

Your friends,
The Gorrell Boys.

First Sale Days January:
 At Gorrell's--Mondays, Wednesdays, Fridays
 At Farmers--Tuesdays, Thursday, Saturdays
