

Greensboro Warehouses Open Early In Sept.

Greensboro, Aug. 5.—The local warehouses of the Tri-State Tobacco Growers' Co-operative Marketing association will open early in September, according to John W. King, director for the eleventh district of the association. Mr. King says that the opening of the warehouses here rests in large measure with the opening of the markets in Winston-Salem and Danville, as it is

planned to have the warehouses here opened at the same time as the markets in those cities begin business.

Both warehouses of the Greensboro Tobacco Warehouse corporation have been taken over by the co-operative people and will be operated by them this fall.

Georgia Tobacco Brings 65c. Pound

Macon, Ga., Aug. 3.—Satisfactory prices were paid today, the second day of the Georgia tobacco markets, according to reports from different buying centers. Hundreds of buyers are bidding for the offerings of growers. At Tifton, more than 100,000 pounds were sold at an average of 30 cents, top prices being 65 cents a pound. Highest price paid at Abbeville was 32 cents, two big lots being sold at that figure, and another for 26 cents. At Hazlehurst 10,000 pounds were sold, the prices ranging from 10 to 44 cents. Buyers said that the grade and quality is better than last year at all points, hence better prices.

Tom Pepper Back From Tobacco Markets

T. R. Pepper, of Pepper's warehouse at Winston-Salem, has just returned from a visit to the tobacco markets in eastern North Carolina and South Carolina. He reports that the crop down there is generally poor and is short, but that prices are very high, being from two to three times as high as last year's prices. For instance, he stated that grades that brought 2 cents last season are bringing 6 to 8 cents now and those in the \$20 class are now \$50 to \$55. It is the opinion of Mr. Pepper that our crop here will sell well.

Mr. J. H. Nelson, of Danbury Route 1, who was a visitor here Monday, reports that the tobacco crop in his section of the Buck Island hills is probably the sweetest and best for a number of years. This section always produces a fine crop and when other sections grow it good they have extra good tobacco.

To The Tobacco Growers of Stokes County:

About your tobacco:
Your crop of tobacco is your livelihood. Into it you put your thought, your energy, and your money. Out of it you expect a fair return for a year's industry.

But you may be overtaken by the most terrible of all calamities that visit a farming community; a hailstorm, with a raking fire of hail bullets that will cut down a field of growing tobacco in half a minute.

You cannot prevent hail, but you can protect yourself against loss by a hail Insurance Policy in the Hartford Fire Insurance Company, which has transacted an insurance business, honorably, for more than a hundred years. The "Hartford's" reputation and traditions are its most valuable assets and forbid sharp practice. The "Hartford" has ample financial resources.

It is just as important that you should insure your tobacco against loss from hail destruction as from loss by fire destruction after it is cut, by means of a policy issued by an agent that has the best interests of his customers ever in mind. Are not these good reasons for insuring your tobacco in the "Hartford"? Don't delay. Insure today.

We will also write fire insurance in Stokes county. You can't afford not to have your buildings insured against fire. See:-
