Only two road sentences have so far been imposed by Judge O. H. Allen who is presiding over the fall term of Stokes criminal court here this week. The court has been in session three days and a good number of cases have been disposed of, a majority of which were for violations of the prohibition law. A few small fines have been imposed by the court.

Solicitor Spruill is here ably representing the State and he is not failing to secure convictions in nearly every case that goes to the jury.

The grandjury is still in session and has acted on a good number of bills. Mr. J. B. Alley is foreman of the body.

Bowers, of Lexington; Wm. Graves, Winston-Salem; Jarvis, of Walnut Cove; Badgett and Bernard, of Pilot Mt., and probably others. Large numbers of farmers and others have also been in attendance.

TOBACCO AVERAGE LITTLE HIGHER

Over Million and Half Pounds At Winston-Salem Last Week Averaged \$15.85 Per Hundred Pounds.

Winston-Salem, Oct. 15.—The Winston-Salem auction tobacco market handled a total of 1,634,802 pounds of tobacco last week for which the farmers received the sum of \$268,245.04, the average price per hundred being \$15.85.

The offerings are running rather light for this early in the season and the quality is poorer than was expected. The average is considerably under what it was last year at this time. However, it is expected that the price will begin to rise as the better grades come on the market. Sales so far have been largely low grade primings.

Heavier offerings are expected each week from now until Christmas. Should there be rain soon the "breaks" will be unusually large, as farmers are waiting for a "season" to get the weed "in order."

John Kingston, having liquor in his possession, judgment suspended upon payment of cost.

W. L. Fisher, having liquor in possession, judgment suspended.

John Martin and Roosevelt Foddrill, forcible trespass, judgment suspended upon payment of cost.

Percy Morris, retailing, two months on road.

Charlie and A. J. Wilkins, manufacturing liquor, case in process of trial.

STOKES FAIR IN PROGRESS

The Attendance Is Large and the Exhibits Finest Ever Shown—News and Personals Of King.

King, Oct. 16.—Mr. J. R. Wall, of Mount Airy, spent Sunday with relatives here.

The Stokes County Fair-Association had contracted with Prof. Hall to make a balloon ascension each day of the fair this week. He was to make an ascension Sunday afternoon also, as an advertisement for the fair association but when the balloon was inflated and ready to go up it caught on fire and burned up. The several hundred people who were waiting to see the ascension were all disappointed. Prof. Hall wired immediately for a new balloon to be shipped by express to King, and it is expected to arrive tomorrow in time for an ascension each day of the fair.

The Kinz Motor Co., which is a branch of The Motor Co., of Winston-Salem, have opened up their new establishment and are ready to deliver any kind of a car or truck, they also carry parts and tires. Mr. C. T. McGee is manager and Messrs. A. E. Gordon and H. D. Moore are salesmen. They seem to be doing a nice business.

Mr. A. M. Caudle, of the U. S. Navy, who is stationed at Hampton Roads, Va., is spending a thirty-day furlough with his parents who reside in Walnut Hills.

If nothing happens to delay the construction force and they are not delayed on account of material, the management of the co-operative receiving station contemplate opening the first Monday in November.

Mr. Claude Culler, of Winding Gulf, W. Va., is spending a few days with his parents here.

The Stokes county Fair opened here this morning with a large attendance and the most and finest exhibits ever seen on the fair grounds here. The attractions are also extra good this year. If the weather holds out good this fair is going to be a record breaker.

HARD SURFACING TO START IN SPRING

Road To Be Graded Between Pilot Mountain and Mt. Airy Will Have Concrete Poured On It Next Spring.

Winston-Salem, Oct. 12.—State Highway Commissioner

A. S. Hanes this morning announced the letting of contracts for grading on the Clemmons-Mocksville highway, and the grading and bridges on the Pilot Mountain-Mt. Airy highway, this work to be done this winter, preliminary to hard surfacing to begin in the spring. Some of the press reports announce that the contracts awarded by the state highway commission yesterday included soiling the stretches. This, says Mr. Hanes, is an error. The distance to be graded on the Davie county project is 8.07 miles; and on the Surry county project is 10.54 miles.

Surry County Co-Ops Open Warehouse

Mount Airy, Oct. 11.—The co-operative warehouse in this city opened Tuesday for the grading of tobacco and about 75,000 pounds were delivered the first day. Joe Dobson is manager and R. F. Joyce is grader. Much satisfaction is expressed by the growers over the grading and the first advances.

POPULAR COUPLE GET MARRIED

Miss Doris Hauser Weds Mr. T. W. Barnes—Feed Barn Burned On Farm Of H. McGee—News Of Germanton.

Germanton, Oct. 13.—The announcement of the marriage of Miss Doris Hauser in Winston-Salem Wednesday night to Theodore W. Barnes came as a great surprise to her many friends here. Miss Hauser entered high school last Monday and no one suspected the contemplated marriage so early. Mrs. Barnes is the winsome and attractive daughter of Mr. and Mrs. C. M. Hauser who resides at Aventine Farm, near here, and she by her charming personality has endeared herself to a large circle of friends who join in wishing her much happiness. Mr. Barnes is a successful young business man of Winston-Salem. Mr. and Mrs. Barnes will be at home to their friends at 1609 North Liberty street in Winston-Salem.

Twin boys were recently born to Mr. and Mrs. Riley George on route two.

"Bud" Heath, a prominent farmer, of the Palmyra neighborhood, felt that luck was with him on last Tuesday afternoon, when a fine young Jersey cow gave birth to twin calves, and at seven o'clock the same evening a fine son was born to Mr. and Mrs. Heath.

Thursday afternoon about 4:30 fire completely consumed the feed barn on the farm of H. McGee, near Germanton. The building was near the residence of a tenant named Anderson. All members of the family were away from the house except Mrs. Anderson and a small child and it is unknown how the barn caught. A grain drill, some other machinery, a number of bales of straw outside the building were burned. Fortunately the wind carried the blaze away from the house or a number of other buildings would have been lost.

More Seized Cars To Be Sold Here

A Ford touring car recently seized by prohibition agents in this county will be sold at auction here Saturday of this week at the court house. A Ford roadster will be sold under the same conditions on Saturday, Oct. 27th. Notice of the sale of the latter car appears in this paper.

Association Meeting Of Primitive Baptists

Madison, Oct. 11.—The Mayo Primitive Baptist Association will be held at the Pleasantville Primitive Baptist church, eight miles from town, on Saturday, Sunday and Monday, Oct. 27, 28 and 29. Some of the denomination's strongest preachers are expected to be present and splendid meetings are anticipated.

CONSOLIDATION IS DISCUSSED

Dr. Cook and J. L. Christian Addressed Audience At Bennett School Last Night On School Consolidation.

Editor Reporter:

Since hearing the plan of consolidation explained by Dr. Cook, of North Carolina College, Greensboro, and Mr. John Christian, of our Board of Education, at Bennett's school house last night, I am thoroughly convinced that the least we ought to do for our children is to provide for them a high school where they may receive an education that will enable them to compete with any boy or girl from any part of the country. Dr. Cook pointed out that a high school diploma is necessary to any one nowadays who applies for a position anywhere. He said that the man who says that his boy can get along without an education as well as he did, is wholly wrong, and that this argument is no more reasonable than it is to say that an army can fight as well with the weapons our fathers used as it can with the machine guns which are now used—machine guns shooting 600 times in one minute while the flintlock rifle would only shoot once in 3 minutes with good luck.

Mr. Christian said that the most successful farmers no longer work with their hands alone but must use their brains; therefore the farmer needs to be equipped with an education just as much as any other professional man does.

Both Dr. Cook and Mr. Christian spoke so earnestly and sincerely on the subject of better schools that no one who listened to them intelligently could fail to see that it is not only extremely necessary for us to provide a better school for our children but it is the only thing to do if we are to discharge the obligation that rests upon us at parents.

ONE WHO WAS PRESENT.

Co-Ops Handle Three Million Pounds Weed

Raleigh, Oct. 16.—Three and three quarter million pounds of tobacco have been handled by the Tobacco Growers' association in western North Carolina and Virginia, according to a report made here last night by J. E. Bowling and Edward Walton, managers of the two districts. This amount represents tobacco handled during the first week of the present opening for this year's crop.

The greatest amount has been received at the Danville, Va., station which reports 300,000 pounds. Durham, Roxboro, Henderson, and Fuquay Springs, all in North Carolina, report amounts in excess of 150,000 pounds. Average first payments, it is stated, have been around 20 dollars a hundred.

MRS. M. O. JONES IS CHAIRMAN

Will Have Charge of the Sale Of Christmas Red Cross Seals For Danbury—She Will Have Assistants.

"No tuberculosis in North Carolina in 1933" is to be the battle slogan in the fight against tuberculosis for the next ten years. A program with such an ambitious objective sounds well nigh impossible of attainment. As a matter of fact, to the skeptical it sounds absurd; but ten years ago no one thought that by faithfully working with the methods then known for the cure and prevention of tuberculosis that the number of deaths in the State could be cut in half, but this is what has been done. Ten years ago, in 1913, there were 4,800 deaths from tuberculosis; in 1922 this number had been reduced to 2,369.

So gratifying have been the results of earnest efforts in the past in reducing the number of deaths from tuberculosis that health workers, particularly in the tuberculosis fields, are encouraged to set out to finish the job. Not that any one worker or group of workers think that by their own efforts such a job can be accomplished in ten or any number of years, but they do feel that with the full cooperation and support on the part of the state, the counties, and every city, town and individual, results even more remarkable than those already accomplished can be brought about. Funds for this work throughout the State and Nation are obtained by the sale of Tuberculosis Christmas Seals.

Mrs. M. O. Jones is Chairman of the Christmas Seal Sale for Danbury and will shortly announce her committee of co-workers.
