The absolute judgments given were from \$4 to \$150 in each case. SEAL SALE BEGINS THANKSGIVING

Plans Have Been Perfected For Larger Sales Than Usual By Mrs. M. O. Jones, the Local Chairman.

In looking over the health activities of the various counties and cities of North Carolina, it is interesting to find that the communities that are the most vigorous in fighting disease and promoting health within their boundaries are the ones that have the larger sales of Christmas Seals. These little health stamps seem to have more than a fund raising value. They carry the Christmas spirit; they educate for health; they inspire to action.

The interest of the people in an active health program seems to be shown by the number of seals they buy. The larger the Seal sale is in a county, the more vigorous is the tuberculosis campaign that follows—not entirely because more funds are available, but because public interest has been aroused through a campaign that has reached every home.

It might fairly be said that the community that does not sell its quota of the Christmas Seals is below par in the scale of community health. It has been weighed in the balance and found wanting. The Christmas Seal barometer indicates the health ahead and this is confirmed by the mortality statistics which cannot be disputed.

Mrs. M. Odell Jones, our local chairman, tells us the Seal Sale will begin here on Thanksgiving day. Plans have been perfected for a sale in our town and community, and we believe the people are going to purchase more liberally of the Tuberculosis Christmas Seals this year than ever before.

Last Payment On 1922 Crop Will Be Made In North Carolina and Virginia On January 10th.

Raleigh, Nov. 21.—Rumor that bright tobacco growers of Eastern North Carolina and the old belt would receive a third payment through their own co-operative association by January 10th, which was attributed to manager Patterson of the association leaf department, was confirmed by Executive Manager Sands tonight:

Mr. Sands' statement follows:

"Sales of 1922 tobacco justify us in assuring our members in eastern North Carolina and the old belts that a third payment will be made by January 10th, and we hope on an earlier date. I desire to fully verify Mr. Patterson's statement published Nov. 19."
