Wilmington, June 3.—I'll stand with the governor's commission against the governor on the eve of a primary election and in the midst of a political campaign," Josiah William Bailey declared here last night when he read the statement Governor Morrison issued in Raleigh in connection with the announcement that the legislature would be called in special session to deal with the water problem.

Read This and Be More Careful

Charlotte, June 2.—Dancing happily across the street with bits of candy in his hands, little Ed McLendon, five-year old son of Mr. and Mrs. M. L. McLendon, 300 South Brevard street yesterday paid little attention to passing vehicles and stepped into the path of a huge automobile, driven by W. P. Redfern, well known men's clothier.

At 8 o'clock last night, six hours after he had fallen beneath the Haynes touring car driven by Mr. Redfern, the little boy answered the final summons; his rosy cheeks became white of a sudden; bright, glistening eyes were dull for once; a little life had ebbed away.

When a broken-hearted mother reached the little boy at the Charlotte sanatorium yesterday afternoon, about an hour after the accident, the child said not a word of his bruises. The mother pleaded with the child to tell her where he was hurt but he only answered, "Ma-ma, I'm killed." They were his last words.

EUROPE WILL BUY MORE CO-OP WEED

The Associated Tobacco Growers Gain New Market By European Expedition—O. J. Sands Has Returned.

Enlarged markets for the tobacco of the 260,000 American planters of the Carolinas, Virginia and Kentucky who are united in cooperative marketing associations will unquestionably result from the work of their commission which is now in Europe for the purpose of shortening the bridge between the organized American producers and the millions of European consumers of tobaccos from this country, according to Oliver, J. Sands, executive manager of the Tobacco Growers Cooperative Association, who has just arrived from overseas and is the first member of the commission from the tobacco farmers of America to return from Europe.

According to Mr. Sands, the cooperative associations will undoubtedly increase their deliveries of tobacco to Great Britain as a result of the visit of the commission to trade centers of England, Scotland and Ireland. The officials of the Imperial Tobacco Company of Great Britain received the commission from the cooperative associations with every courtesy and consideration on May 15 at Bristol, England. Another meeting of the Imperial officers and the officials of the tri-state association of Virginia and the Carolinas and those of the Kentucky Burley and Kentucky Dark Associations will be held following the arrival in England of Judge Robert Bingham of Kentucky, founder of the Burley Association.

The French Minister of Finance and the Minister of Commerce who direct the affairs of the French government monopoly in tobacco gave the commission a most encouraging reception which resulted in assurance of cooperation and continued purchases of the tobaccos produced by the associated growers.

Every encouragement to the commission is expected from the other European countries which sell through government monopolies and very favorable connections have already been established in Germany, according to the latest cable to reach the offices of the Tobacco Growers Cooperative Association at Richmond.

The tri-state association has just completed delivery of approximately twenty million pounds of its redried tobaccos to three of the largest manufacturers of the world trade, according to the latest statement of Richard R. Patterson, the cooperative's leaf manager who says that several other large sales will probably be made within the next few weeks.

Checks which total more than a million dollars are almost ready for distribution to the members of the Tobacco Growers Coopera-
