

**RED CROSS ADVANCING  
IN HEALTH CAMPAIGN**

Extends Service to New Fields  
and Brings Healing Hope to  
Remote Sections.

"The supreme opportunity for leadership" for the American Red Cross is its health service. This a committee made up of prominent physicians, sanitarians and public health experts, after months of exhaustive study, reported and agreed that not only should the Red Cross continue its present service, but should undertake a comprehensive educational campaign along public health lines. The annual report of the American Red Cross, just issued, discusses that it has grasped this opportunity in the fields of public health nursing, instruction in home hygiene and care of the sick, nutrition work, first aid to the injured and in water life-saving.

Health service is fundamentally, historically and practically an important function of the Red Cross, and each year marks its extension into new fields and along broader lines. In the Red Cross Nursing Service, there are enrolled nearly 40,000 nurses, 20,000 of whom served during the World War. The past year Red Cross nurses were assigned to duty in isolated sections of Alaska and North Carolina and to work among the fishermen of Pembroke Bay, Me.

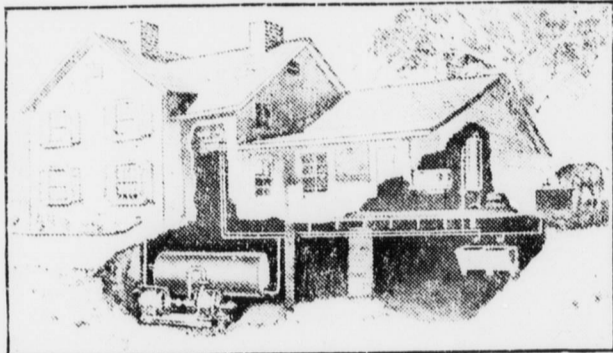

The Public Health Nursing Service, inaugurated by the American Red Cross in 1912, which operates chiefly in rural sections untouched by other public health agencies, has 1,008 Red Cross nurses working under the direction of chapters. This work has won so high a regard that many of the nurses are taken over by the local authorities to maintain health services for their communities. Instruction in Home Hygiene and Care of the Sick is making a steady advance. Since 1914 certificates of proficiency have been given 10,127 women who completed the Red Cross course. In the last year 21,700 certificates were awarded and 10,000 students were under the instruction of 1,041 Red Cross nurses.

The benefits derived from meals balanced to meet each person's peculiar needs is winning widespread recognition through the work of the Red Cross Nutrition Service, particularly in the schools. During the school year 1923 carried on regular instruction in nutrition reached more than 150,000 children and adults. More than 2,250 volunteers assisted in this work. Throughout the country 35,283 health meetings were held under Red Cross auspices, attended by approximately 254,500 persons.

**BETTER BEEF BY  
ELECTRIC PUMPS**

Make Fresh Water Possible,  
and Iowa Man Finds Cattle's  
Weight Gains Accordingly.

It has been established conclusively, in the practice of successful farming, that fresh water, as distinguished from standing water, means better broodstock. And it has now been established, in addition, that an electrically operated pumping system on the farm is so efficient in providing a supply of fresh running water that it is comparable with that most of all water supplies, a natural spring. The experience of an Iowa farmer

Electrically Operated Water Supply System for Farm Use.

In this matter has just come to notice. This farmer, who is also a local banker, was raising beef cattle. He made tests in the relation of water to the weight of his stock and noted that his cattle drank more water when it was pumped fresh from the ground for them, than when they drank water that had stood long in the tank.

Following a study of the matter, he and a notable engineer put in an electric power line for their farms, extending together about 8 1/2 miles. After a year's operation from that particular station, 37 carloads of cattle were shipped. Seven of these carloads were from three farms—a farm with a spring and the two farms equipped with electricity.

**Difference Due to Water.**  
The cattle in these seven carloads were the only cattle out of the entire 57 carloads that brought top prices on the market. Moreover, the average weight of the cattle in these seven cars was 58 pounds per head greater than the average weight of the cattle in the other cars. The banker-farmer attributed this entirely to his facilities for giving the cattle an adequate supply of fresh water at ground temperature, and he estimated that in this year alone he made approximately \$400 on his investment.

**FARMS AND CITIES  
A MODERN CONTRAST**

Inequalities Noted by One Who  
Has Electric Light and Heat  
Within Finger Reach.

In the thinly settled regions are many folks who yearn for the time when electricity will reach them. This is made plain by a letter which appeared in the Michigan Patron, official organ of the Michigan State Grange, a short time ago. This correspondent said:

"Reading about the Grange investigation of water power for farm use has set me thinking about the inequalities of our present opportunities.

For instance, for three weeks I've been commanded to lie in bed and keep absolutely warm. Even though it has been 12 degrees below zero part of that time, at any moment I could reach up and by a twist of my fingers draw my room with brilliant light, while with the other hand I could turn a current of heat into an electric fan at my side. Thus, somewhere, perhaps out in a distant river, water was working to send me light and heat.

"But I happen to know that not many miles away there are farm men and women laboring by lantern light and candle power. And I think, too, of another farm woman who lives so close to a city she sees its twinkling lights every night. One night at Grange the lecturer asked this woman to tell what she'd do if she had \$50 to make her work easier, and she stood up and named more improvements than \$1,000 would install—all electrical. Among other things she said: 'Every member of my family needs a lamp to study or work by every night, and every morning I must wash and fill those lamps. What a help it would be to me to be spared this daily task!'"

Tillotson, dec'd, this is to request all persons owing his estate to make immediate settlement of same, and to notify all persons holding claims against his estate to present the same duly authenticated, to the undersigned for payment on or before July 4, 1925, or this notice will be pleaded in bar of their recovery.

This June 30th, 1924.  
**MRS. M. J. FERGUSON,**  
Adm'x. of J. B. Tillotson, dec'd.  
**J. W. Hall, Atty. for adm'x.**

**Weak Nervous**

"I was weak and nervous and run-down," writes Mrs. Edith Sellers, of 466 N. 21st St., East St. Louis, Ill. "I couldn't sleep nights, I was so restless. I felt tired and not in condition to do my work. I would have such pains in my stomach that I was afraid I would get down in bed. . . My mother came to see me and suggested that I use

**CARDUI**  
The Woman's Tonic

I felt better after my first bottle. I had a better appetite. It seemed to strengthen and build me up. I am so glad to recommend Cardui for what it did for me. I haven't needed any medicine since I took Cardui, and I am feeling fine."

Nervousness, restlessness, sleeplessness—these symptoms so often are the result of a weak, run-down condition, and may develop more seriously if not treated in time.

If you are nervous and run-down, or suffering from some womanly weakness, take Cardui.

Sold everywhere. **E-105**

**PUBLIC SALE OF VALUABLE LAND.**

By virtue of a deed in trust executed to the undersigned by W. Z. Frazier and wife, Clara Frazier, bearing date of April 26, 1910, and recorded in the office of the Register of Deeds at Danbury, Stokes County, North Carolina, in Book No. 51, page 664, and being described as follows:

Beginning at pointers, thence South 39 1/2 chains to W. C., thence E. 8 1/2 chains to road, thence North 49 deg. West 34 chains to forks of said road, thence North with another road 22 1/2 chains to a sourwood pointer thence 35 chains to the beginning, containing one hundred, twelve and one-half acres, more or less.

The said land lies near the Levi Lackey Store, and is the land on which W. Z. Frazier and wife resided at the time the trust deed was executed, the same being given to secure a note of \$295.00, payable to A. C. Turner, of which \$154.00 remains unpaid, and upon the request of A. C. Turner, I will sell by way of public auction, for cash, on the premises, between the hours of 12 M. and 2 P. M., on—

**THURSDAY, JULY 31, 1924,**

the aforesaid described land.

This June 24, 1924.  
**J. H. HILLON,**  
Trustee.  
**J. W. Hall, Atty.**

**NOTICE OF APPLICATION  
FOR PARDON.**

Notice is hereby given that an application will be made to the Governor of North Carolina for the pardon of J. N. B. Carithers, who was convicted at the Spring Term, 1921, of the Superior Court of Stokes County, of the crime of embezzlement and sentenced to a term of three years on the public roads of Stokes County. All persons opposed to the granting of said pardon are invited to forward their protests to the Governor without delay.

This June 23, 1924.  
Signed:  
**MRS. J. B. CARITHERS.**

**NOTICE OF SALE OF  
DODGE CAR.**

Federal Prohibition Director's Office,  
Salisbury, N. C., June 17, 1924.

The following described property, seized by Federal Agent Fletcher, from unknown parties, for violation of the National Prohibition Act, will be sold at Public Auction in front of the Court House at Danbury, N. C., Stokes County, at 12:00 o'clock, noon, on—

**SATURDAY, JULY 19, 1924.**

Unless claimant appears for same:

- One Dodge Touring Car, Motor No. 813932, 1923 model.
- A. B. COLETRANE,**  
Federal Prohibition Director.

18June2w

**WANTED—Students to work in office while taking business course. Tuition paid from guaranteed position after graduation. Edwards Business College, High Point, N. C. 1v**

**FOR RENT OR SALE.**

Two good farms near Wilson Store, one about 80 acres, the other 17 acres. Apply to John R. Smith, Walnut Cove, N. C., Route 1. 25June2w

**NOTICE OF RE-SALE OF  
VALUABLE LAND.**

Under and by virtue of an order of the Superior Court of Stokes County, N. C., made in a special proceeding, entitled Mary E. Clark and husband, Thos. Clark, Sallie Martin and others against Jesse Hatcher and others, same being number upon the special proceedings docket of said court, the undersigned commissioner will on—

**WEDNESDAY, JULY 16, 1924**

At one o'clock, P. M., on the home site of the late Manon Martin, in Stokes County, N. C., four miles north-east of Sandy Ridge, on the sand-lay road, leading from Price, N. C., to Sandy Ridge, offer for sale, to the highest bidder for cash, that certain tract or parcel of land in Sandy Creek Township, Stokes County, N. C., known as the home place of Manon Martin, deceased, and described as follows:

Beginning at a stone, thence North 87 1/2 degrees West 192 poles to a stone; thence North 86 1/2 degrees West 77 poles to stone; thence South 29 degrees West with the branch 46 poles to a stone; thence South 86 degrees East 43.10 poles to a stone; thence North 87 degrees East 45 poles to a stone; thence South 75 degrees East 120 poles to a stone; thence North 77 1/2 degrees West with Rockingham county line to the beginning, and containing 76 1/2 acres, more or less.

This sale is made by virtue of an order of resale made by the court by reason of an increase bid being placed upon the price at which said land was sold.

There is a good dwelling on this land, located on good soil and in excellent condition with heat and water. There is an up-to-date lighting system in the house and an excellent lot of out-buildings, consisting of three tobacco barns and one tenant house, and other buildings.

This June 30th, 1924.  
**J. H. MARTIN,**  
Commissioner

**ADMINISTRATOR'S NOTICE.**

Having qualified as administrator of the estate of Gideon Ferguson, dec. this is to request all persons owing his estate to make immediate settlement of same, and to notify all persons holding claims against his estate to present the same, duly authenticated, to the undersigned for payment on or before the 5th day of July, 1925, or this notice will be pleaded in bar of their recovery.

This June 30th, 1924.  
**T. G. FERGUSON,**  
Adm'r. of the estate of Gideon Ferguson, deceased.  
**J. W. Hall, Atty. for adm'r.**

**MOTORS ARE HUMMING  
ON RED WING FARMS**

Trial Electric Line in Minnesota  
Is Operating—The Farm  
Machinery Question.

These are busy days on the eighteen farms lying five miles out from Red Wing, Minn., where a rural electric transmission line has been put into operation to determine by a scientific investigation the economic possibilities of electricity in agriculture. Within the last few weeks a great deal of special apparatus for use on these farms by electric energy has arrived and been put into service.

The current on the trial line was turned on for the first time on Christmas eve. At that time, however, the installation and wiring on the different farms provided only for electric lights. No farm equipment for electrical operation was installed until March 15.

Equipment Arriving Daily  
During March and April, however, almost every train brought some new piece of equipment into Red Wing and these utensils were installed as rapidly as possible.

The joint committee which is conducting this experiment consists of four farmers, two power company representatives and the dean of the Minnesota College of Agriculture. The chairman is James P. Reed, president of the Minnesota Farm Bureau Federation and vice-president of the American Farm Bureau Federation.

Manufacturers of electrical equipment and of farm machinery are watching this enterprise with keen eyes. Some of the biggest of these companies are co-operating by furnishing equipment; others are taking note of the progress and method of procedure. The General Electric Company sent one of its engineers all the way from its headquarters at Schenectady, N. Y., to inspect the trial line and observe all that is being done.

**Electricity and Eggs Again**

Eighty eggs a day, instead of a niggardly eight, is what the hens of a Wisconsin poultryman are doing in the winter since the electric lighting of the poultry house. From all accounts, electricity has assuredly uncovered the hidden energy of the hen population.
