HIGH TAX RATES IN THE COUNTIES

Rutherford County Has Highest Rate With Stokes Close Behind—Property Valuations

Raleigh, May 12.—North Carolina's total personal and property valuation stands at \$2,693,416, according to the 1924 county assessments of revenue and compiled by Dan W. Terry, franchise tax deputy. The average per capita wealth, based on these figures, is approximately a thousand dollars.

That few changes have been made in the several county valuations in the last year or two is now indicated by a comparison of the figures in the last report with the assessments for 1923, which aggregated \$2,657,169. The valuation for 1920, in the days of revaluation, was \$3,156,243,202.

Forsyth continues to rank first as the county for greatest wealth, its 1924 valuation being reported at \$167,267,822. Guilford is next with \$158,070,426; Mecklenburg third, \$147,060,090, and Buncombe fourth, \$118,730,590.

Transylvania county has the smallest valuation, \$1,707,635, and Clay is next with six hundred thousand dollars form, \$2,382,973.

The total tax rate in Forsyth, the wealthiest county, is 55 cents and in Transylvania, with the lowest property assessment, \$1.21. Forsyth's rate is the lowest in the state, according to the revenue department's figures, but Transylvania's is not the highest. The citizens of Rutherford county may claim the distinction of paying the most tax for each hundred dollar's worth of property, the department listing the rate there at \$2.30, of which \$1.70 goes to schools. Clay county stands second with a rate of \$2.26.

STOKES ENTITLED TO HER PART

Mothers' Aid Fund Must Be Applied For By June 10th.

By an act of the recent legislature the appropriation for mothers' aid work throughout the state was reduced from \$50,000 to \$30,000. Under the old system the fund was divided among the 100 counties of the state on a population basis. At the end of the year it was found that only 63 counties had used part or all of their quotas, and the remainder reverted to the general fund, and was not available for the counties really administering the fund.

Under the new system all those counties which have not applied for mother's aid appropriation by June 10 will forfeit their claims for funds. In this way the unused portion may be used for the counties which are actively engaged in mother's aid work.

In January, 1926, Billy Sunday will hold a meeting in Binghamton, New York, and about the last of February will open in Baton Rouge, Louisiana.
