## PROSPECT BRIGHT FOR GOOD PRICES

Jesse B. Glenn, Winston-Salem warehouseman, thinks the bright cigarette tobacco will prove attractive to manufacturers.

Jesse B. Glenn, Winston-Salem tobacco warehouseman, returned this week from Georgia, where he has been conducting a warehouse business during the latter part of the summer. Mr. Glenn believes that the Winston-Salem market is in for the best season that it has known in years, saying that leaf tobacco here looks better than it has during the past seven years.

On his way back from Georgia, Mr. Glenn visited tobacco centers in South Carolina and in the eastern part of North Carolina. He declared that the further north he proceeded in the tobacco belt the better the crop looked, culminating in this section.

The prices for the leaf this year are high, said Mr. Glenn, and buying is very brisk. He accounts for this by the fact that practically all of the larger cigarette manufacturers in the country are very low in their supply of cigarette leaf and are eagerly buying to replenish their stock.

## STILL CAPTURED; MAN ARRESTED

Wife Reid Fulk Gives Bond After Being Arrested When Still Is Found Near His Home.

On Sunday afternoon Prohibition Agents P. L. Fitchum and W. C. Matthews found a ten gallon copper still right near the home of Willie Reid Fulk, who resides five miles north of here on Danbury Route 1. The still was on a furnace but was not in operation. Fulk was arrested and furnished bond in the sum of \$500 for his appearance at Federal court.

It is learned that Fulk will implicate several of his neighbors when the matter comes up for trial.

## Man Killed In Wreck At Madison

Madison, Sept. 12.—Porter Hyatt, about 25, of Greensboro, was instantly killed when a small roadster in which he was riding with two companions overturned at the intersection of highway 708 and a county highway near here about 3 o'clock this afternoon.

A woman, who gave her name as Noah, and man named Martin, also of Greensboro, were injured. The woman was taken to a Leaksville hospital.

Hyatt is said to have been driving so rapidly that an effort to make the sharp turn resulted in the wreck.

## S. Carolina Tobacco Crop Is Best In Years

Columbia, Sept. 12.—South Carolina's tobacco crop this year promises to be the best from the price viewpoint that the state has had in recent years and far ahead of that of last year. The report of the state department of agriculture, for the month of August, the first month of the season, shows the price higher than last year by a considerable margin, though the crop will be somewhat smaller, it is said.

The average price per pound during August was \$24.89 per pound as compared with \$17.81 last year.

Mr. and Mrs. John Taylor spent Monday in Winston-Salem.

## USE NATIVE STONE IN STOKES ROAD

Rock Crushing Machinery To Be Installed Two Miles South of Danbury By Chapel Hill Company — To Begin Pouring Concrete Soon.

Native stone is to be used in the construction of the concrete road between Danbury and Walnut Cove. The Chapel Hill Supply Co. has a force of men here this week getting out stone two miles south of Danbury and rock crushing machinery will be placed near the county home two miles south of Danbury, this week or next.

Mr. Cobb, of the Chapel Hill Co., who is a mineralogist, has been here for some days selecting beds of stone to be used in the construction of the road, and he finds our stone very satisfactory for the purpose. The greater part of the stone to be used is blue flint, while some granite has been found.

It is hoped that the contractor expects to be ready to begin pouring concrete on the Danbury-Walnut Cove road within the next 20 or 30 days. The grading on this road is now almost completed. One of the steam shovels which has been used on the work has already been shipped to another road project, while the other one has almost reached Walnut Cove with the grading.

## Prayer Offered Before Opening Tobacco Sale

Danville, Va., Sept. 10.—Judging from the reports brought back to Danville by W. T. Cousins, prominent local tobacco dealer who returned yesterday from Eastern North Carolina, where he attended the opening of the tobacco market on Tuesday, the people of Granville and neighboring sections are firm believers in the efficacy of prayer. Certain it is that if they do not their actions belie their beliefs, for before the auctioneer began crying the bids in one of the large warehouses in that city Tuesday morning a minister climbed upon one of the piles of tobacco and the thousands who thronged the building stood with bowed heads as he offered a prayer of thanksgiving for the splendid crop of tobacco and a plea that it might bring a high price. Immediately after the prayer the selling began, with buyers going on a bidding spree the like of which had not been witnessed in that section since the boom days of 1919. Happiness reigned supreme among "marker" following the sale, Mr. maker" following the sale, Mr. Cousins declared.

## Warehouses Open In Twenty Days

The tobacco warehouses at Winston-Salem, Mt. Airy, Martinsville and other point in this section open October 5th, only about 20 days from this time. Some farmers are already beginning to get a small batch of primings ready to go to market and see how the opening sales start off. The crop in Stokes is in the opinion of a majority of the farmers.

## Baptising Here Sunday Morning

A large congregation attended the baptising in Dan river near town Sunday morning when Mrs. Robert Dalton was immersed. Elders W. J. Brown and Watt Priddy, of the Primitive Baptist church, conducted the services.

## SHOOT TO KILL, SAYS UNCLE SAM

Postoffice Department Gives Mail Clerks Orders To Protect Millions — Warning To Underworld.

Washington, Sept. 12.—A command "to shoot to kill" was sent out today by the postoffice department to its army of 22,500 railway mail clerks to protect from bandits the millions of dollars worth of treasure handled daily in the United States mails.

The command, which applies to the thousands of other postal employees, also contains a warning to the underworld that the postal service means war and anyone found attempting to rob the mails may expect a cold lead reception and no mercy.

In issuing the command it also was indicated that, if this means of protection should fail, the United States marines again might be called to guard the mails as they did late in 1921 when banditry was prevalent.

The drastic move was determined by Postmaster General New at a council of war with his lieutenants as a result of the recent holding near Chicago in which bandits stole \$135,000 in currency.

Postmaster General New has considered calling the marines, but the "soldiers" of his own forces—the postal employees who have been fully armed—will be able to cope, he believes, with the present epidemic of banditry.

## North Carolina Has 63 Millionaires

There are 11,000 millionaires and probably one billionaire in the United States, in the opinion of Joseph S. McCoy, treasury actuary.

"The billionaire probably lives in New York," Mr. McCoy guesses in the current American Bankers Association Journal.

Nine years ago, when war profits held sway there were 11,800 millionaires, but 2,800 of these toppled in 1920 and 2,000 of them have been replaced. Studies of income tax reveal some of the war millionaires were even wiped off the income tax lists by the end of the 1920 depression, but today one out of every 10,450 Americans is a millionaire.

New York with 2,800 millionaires leads the list. Pennsylvania is next with 1,952 then Illinois follows with 800, Massachusetts with 610, California 470 and New Jersey 390. Dakota is the only State without a millionaire, and Idaho, Nevada, South Dakota and New Mexico have one each.

Other States are: Alabama, 26; Arizona, 7; Arkansas, 24; Colorado, 44; Connecticut, 180; Delaware, 24; District of Columbia, 86; Florida, 51; Georgia, 42; Hawaii, 30; Indiana, 85; Iowa, 33; Kansas, 17; Kentucky, 32; Louisiana, 35; Maine, 30; Maryland, 129; Michigan, 312; Minnesota, 110; Mississippi, 14; Missouri, 174; Montana, 8; Nebraska, 16; New Hampshire, 28; North Carolina, 63; Ohio, 361; Oklahoma, 33; Oregon, 28; Rhode Island, 83; South Carolina, 19; Tennessee, 29; Texas, 96; Utah, 6; Vermont, 15; Virginia, 36; Washington, 24; West Virginia, 53; Wisconsin, 95; and Wyoming, 2.

Next to the billionaire are three men worth \$1,000,000,000 between them, and in 1921 there were 74 Americans with incomes of \$1,000,000 a year.

Thirty-five scrub balls have been replaced and 21 pure bred animals brought into Jackson county during the past summer.

## ELDER FAGG SEES FINE PROSPECT

Winston-Salem Warehouseman Says Stokes Has Excellent Crop of Tobacco and Chance For High Prices Is Good.

Elder and Mrs. James A. Fagg, of Winston-Salem, were in Danbury a short while today enroute to the northern part of Stokes.

Mr. Fagg stated that he had been over a good part of Stokes and that he found the farmers had a fine crop of tobacco. It is his opinion that this crop is going to sell high or at least bring satisfactory prices, since the greater part of the leaf is curing bright, the kind for which manufacturers have been clamoring for a number of years.

During the coming season Mr. Fagg will again be associated with Brown's Warehouse at Winston-Salem and he says his house is making preparation to take care of heavy sales from Oct. 5th on thru-out the tobacco season.

## Carbon Monoxide.

That is what they call the exhaust fumes from the automobile, and now arises a scientist who would alarm the people about the "new menace." The mischievous brain of the chemist has discovered that aside from costing the American motorist as much as \$50,000,000 a year, the "killing motor" are creating a menace to public health. Things are going to get so bad, he says, that inter-city motor trucks will be forced by law to carry auxiliary electric motors to propel the trucks through congested districts. It is his idea that pollution of the air by automobile exhausts is reaching "the saturation point," but the owners of automobiles are apparently insensible to the annual loss of \$50,000,000 which is attributed to them, and as for the carbon monoxide, why, the average population would rather see the cut-out and horn-blowing noises abated first, and then take up the matter of the menace, one which, we have the notion, is partly, if not wholly, blown away with every passing breeze.—Charlotte Observer.

## They All Advertise

A hen is not supposed to have much common sense of tact. Yet every time she lays an egg she cackles for the fact. A rooster hasn't got a lot of intellect to show. But none the less most roosters have enough good sense to crow. The mule, the most despised of beasts, has a persistent way of letting folks know he's around. By his insistent bray. The busy little bees they buzz. Bulls bellow and cows moo. The watchdogs bark, the ganders quack. And doves and pigeons coo. The peacock spreads his tail and squawks. Pigs squeal, and robins sing. And even serpents know enough to hiss before they sting. But man, the greatest masterpiece of that nature could devise, Will often stop and hesitate before he'll advertise.

## CLUB WOMEN OF 7 COUNTIES COMING

District Meeting of Federated Clubs To Be Held At Piedmont Springs October 6—Danbury Fine Arts Club To Entertain.

The Fine Arts Club of Danbury will entertain the district meeting of Women's Federated Clubs at the regular yearly meeting at Piedmont Springs Wednesday, October 6th.

Seven counties compose this district, which is the sixth and they include the counties of Forsyth, Surry, Stokes, Davidson, Davie, Rowan, and Alleghany.

Mrs. Claude S. Morris, of Salisbury, is district president and will preside over the meeting at Piedmont Springs. The state president of Women's Federated Clubs, Mrs. E. L. McKee, of Sylvia, N. C., will be present and deliver an address. Each club in the district will have representatives present and give reports of various phases of their club work.

## Stokes Man Buys Out Barbecue Co.

John Brum, of Stokes county, salesman for the Gulf Refining Co., has purchased the business of the Dixie Pig Barbecue Co., located just this side of the Winston-Salem fair ground at the old Double Branches, and he is now operating the plant. The barbecued pig sandwiches put out by the company are rare and said to be very fine.
