TOBACCO SALES STARTED TUESDAY

Price On Winston-Salem Market Was Around 23 Cents—Million Pounds Offered First Day.

The Winston-Salem tobacco market opened Tuesday with about one million pounds of the weed on the warehouse floors, and the average price paid the farmers was 23 cents per pound.

It was the general opinion among farmers that prices on the better grades of tobacco were no higher than last season, but that the poorer grades were considerably higher. The average price on the opening day last year was only about 11 cents per pound. The higher average this year is accounted for largely by the fact that the crop is far superior to last year's crop.

A good number of Stokes farmers visited the market the first day and were generally very well pleased with the sales they made.

The first frost of the season was seen here this morning. No injury was done to tobacco in the field, however.

FORSYTH DOGS MUST WEAR TAGS

County Commissioners Make This Order When They Have To Pay Damage Claims On Account of Dogs.

Hereafter the dogs of Forsyth county will wear tags bearing numbers or they are liable to be killed and their owners prosecuted under the criminal law according to a statute of North Carolina, Chapter 384, Laws of 1911, entitled an act to mitigate the evils of hydrophobia.

The commissioners became painfully aware of this evil Monday when they authorized the payment of \$243 for the damage done by unknown rabid dogs. The owners of these dogs could not be found because a mad dog owner does not usually push his title and because the animals were not marked. The Forsyth county commissioners want all dogs marked in the future and they have asked the sheriff to enforce the statute to the limit. Dog tags will be ordered and unlicensed dogs will not be allowed to operate.

The case in which the commissioners had to fork over the cash Monday morning, was that one involving the biting of a mule belonging to F. M. Holland, of Belevs Creek township. The mule in turn bit a veterinary surgeon, Z. B. Biting. Dr. Biting is taking the pasteur treatment. The county reimbursed Dr. Biting, F. M. Holland and J. D. Fulton, who were also bitten by a rabid dog.

MT. AIRY MARKET PLEASES FARMERS

All Warehouses Filled With Weed On Opening Day—Average Price Was Around 23 Cents.

Mount Airy, Oct. 5.—The tobacco market opened here this morning with one of the largest breaks of the weed in the history of this market. Every inch of available space on the floors of the Farmers, Lovill's and the Piedmont was taken up by golden colored tobacco, while trucks were standing waiting to be relieved of their valuable loads.

The crop in the counties of Surry and Stokes in North Carolina and Carroll and Patrick in Virginia is said to be much better than the average this year and it is expected that the Mount Airy market will far outdistance all former records in the matter of pounds sold and the outlook for high prices were never better than at this time. A spirit of optimism prevails among the warehousemen and the farmers as well and a period of business activity is forecasted for this entire section.

The prices paid to the growers up to noon today, it is said, were unusually high and there is an attitude of entire satisfaction on the part of the growers. The entire day was consumed in selling the first day's heavy breaks.

The market opened with about two hundred thousand pounds distributed between the three warehouses and it is estimated to average around twenty-two and one-half to twenty-three cents per pound. Lovill's Warehouse had first sales.

Miss Elizabeth Lovill, sister of the proprietor, bid in the first pile offered at thirty-two cents with Hale's Department Store the purchaser. Prices went to forty-seven cents on the same floor later. Practically all the farmers were well satisfied with prices, which were even better than they anticipated, in many instances, for the tobacco offered was only first primings.
