

CONCRETE ROAD OPENED TODAY

Hardsurface Highway From Danbury To Walnut Cove Completed and Soil Removed From Last Section Today.

The pouring of concrete on the road from Danbury to Walnut Cove was finished two weeks since and according to Engineer W. C. Kanoy the soil will be removed from the last section of road today, opening up the hardsurface all the way, and giving traffic the right of way.

This will be pleasant news to the thousands who travel this thoroughfare.

The grading forces are busy now constructing the "shoulders" on each side of the concrete, but this work will not interfere with traffic on the concrete.

Licenses will be issued by Superior Court Clerks and Game Warden, and doubtless other arrangements will be made for the convenience of hunters in securing license.
