Big Circulation Drive Launched

Two Costly Cars Are Part Of "The Wonder Prize List"

GREATEST OFFER EVER MADE TO READERS OF THE DANBURY REPORTER

LIBERAL CASH COMMISSIONS FOR THOSE NOT AWARDED PRIZES

CAMPAIGN WILL BE SHORT, COVERING ONLY SIX WEEKS—ENTRY BOOKS ARE NOW OPEN

With a more stupendous list than has ever been offered in this vicinity in a similar undertaking The Reporter makes formal announcement of a circulation drive in which hundreds of dollars worth of big awards and cash commissions will be given away. A two-page announcement in this issue gives the details of this gigantic enterprise. The two automobiles are of the most popular and latest models, and the list consists of some of the most alluring and attractive prizes imaginable.

The object of this circulation drive is twofold. It will increase the already wide and highly creditable circulation of this newspaper to even greater proportions. It will also introduce to many new homes Stokes county's only weekly

publication. This paper is going to pay its friends handsomely for helping introduce the publication to other friends and neighbors.

The prize list is headed with two of the latest model automobiles. There is an abundant supply of cash with which to pay cash commissions to those who do not win one of the prizes.

The plan adopted by The Reporter is a novel one. This paper could reach thousands of new readers by employing scores of solicitors to cover this section but it would take quite a long while to do the work thoroughly. In inaugurating the circulation drive The Reporter adopted a better plan—a quicker method. This plan also gives its friends and readers an opportunity to earn big rewards during their spare time. The circulation drive

will make a lot more noise and create interest and fun—there is nothing like having some fun along with business.

Big Pay For All

An especially attractive feature of the "Circulation Drive" is that all will be paid handsomely for the results they ob-

tain. A cash commission of twenty per cent will be paid to all who do not win one of the prizes. Thus, the circulation drive is a sure thing from the beginning. Their reward depends entirely on the effort put forth, and the results obtained.

Spare Time.

All one is expected to do in order to earn one of the splendid prizes is to devote his or her spare moments to obtaining subscriptions to The Reporter. In fact, sufficient time is allotted to the campaign to allow one to see every friend and acquaintance during spare time. The campaign will last six weeks beginning with the first published list of candidates' names.

A Great Opportunity.

The word "automobile" is the biggest word in the American vocabulary today, and just how to make it possible to own a good car has perhaps been the thought uppermost in the minds of many. Those who already have automobiles are contemplating the ownership of a bigger one; those who do not at the present time possess a good automobile are more than likely laying their plans for one in the near future. Here is the opportunity to own an automobile—the most popular on the automobile market today—and without the cost of a penny.

Business Proposition.

In offering such valuable awards to those who take an active interest The Reporter is not playing the role of a philanthropist—neither is it a something-for-nothing scheme. It is a business proposition pure and simple. The thousands of dollars worth of prizes and cash will be given in exchange for well directed efforts on the part of the contestants. The awards themselves assure each and everyone that their efforts will bear fruit to the fullest extent.

Early Start Is Best.

In every man's life there is one big moment when he makes a decision that robs him of success—or leads him to fortune. The world is full of those who yearn for better things that never seem to come. The action is missing but let him see and grasp the opportunity and there will be an amazing transformation in his fortunes. The moment he decides for or against that opportunity—whether he will seize it or let it pass—he decides the whole future course of his life. The main thing in the circulation drive is to get an early start in the race—it means everything to those who have ambition and a desire to succeed. So the first and best thing to do is to enroll your name at once and then get out

Thousands Attend Big Auto Shows

New York, Jan. 10.—Thousands of motorists are visiting two automobile shows here, one of them free.

Models of forty-three makes of motor cars are on exhibition at the National Automobile Show in Grand Central Palace, while at a free show in Madison Square Garden the Ford Motor Company is displaying all steps in the manufacture of a Ford.

Henry Ford, who came here to attend the formal opening of his exhibition, also visited the National Automobile Show and was generally unrecognized except by salesmen in his Lincoln booth. He was accompanied by his son, Edsel Ford.

Mr. Ford first paid a visit to his own show, however, where the Ford car, the Lincoln, and the Ford all-metal airplane are on exhibition. His plans for today called for a visit to West Orange, N. J., to his friend, Thomas A. Edison, who plans to visit the Ford exhibition later.

LEAF MARKET ACTIVE TUESDAY

More Tobacco Sold Than Any Day Since Holidays — Dark Common Grades.

Winston-Salem, Jan. 11.—The leaf tobacco market had a pre-holiday appearance this morning, there being more tobacco here than any day since the re-opening today. Cars rolled into the warehouses at a lively clip during the early hours, and some kept coming in all day, the result being the buyers were kept busy until late in the afternoon. It was estimated in the neighborhood of 800,000 pounds were sold during the day, the sales not being as fast a clip as when the market was crowded.

Prices on the cigarette types were very satisfactory to the growers and the better grades of dark leaf sold at very good prices, but the dark common is showing practically no change and is selling low.

The weather today was ideal for selling and there were a large number of growers on the market. Many of the cars coming in had only a few hundred pounds of tobacco, showing very plainly that the growers are fast winding up their selling and much of today's offerings consisted of common dark tips.

Some tobacco was seen selling at 40 cents and better, but these were good cigarette types, which have been in demand throughout the season.

Speed Laws May Be Abolished

Paul C. Forman, vice-president of the Studebaker Corporation, expresses the opinion that within five years all speed limit laws in the United States will be abolished. The automobile of today, he said, is safer at 50 miles an hour than that of ten years ago at 20 miles an hour. He pointed to the example of Michigan, where there is no legal speed limit, but reckless driving is heavily penalized.

Charlie Johnson, of Greensboro, was a business visitor here Tuesday.

Think Pee Dee Bridge Demolition Wasteful

Elizabeth City, Jan. 10.—That Swift Island bridge across the Pee Dee river near Albemarle, Stanly county, whose destruction by aviators with high explosives has been much in the papers in recent weeks, is a most exceedingly sore subject with people in that part of the state, according to Dr. William Parker, of this city, who has just returned home after having spent the holidays with relatives in Albemarle.

Privately and among themselves, the people of Stanly and their neighbors hold that the destruction of the bridge was a totally unnecessary waste of money and proved nothing, since everybody knew already that TNT would destroy it.

Martin-Simmons.

Danbury Route 1, Jan. 7.—The wedding of Miss Georgia Simmons to Charlie Martin was quietly solemnized on Saturday at the home of Elder W. J. Simmons, while Mr. Martin is an energetic young farmer of the Moore's Springs section. Their many friends wish them a bright and happy married life.
