FIRE-PROOF BARN MAKES GOOD

Tobacco Burns Out But Leaves Tobacco In Tact — Wooden Structure Would Have Been Complete Loss.

The efficacy of tile tobacco barns is related to Commissioner of Agriculture William A. Graham by Bud Hooks, Kenly, R. F. D., who asked that the farmers of the State be informed of his experience.

"Knowing that you are interested in the welfare of the farmers of North Carolina," Mr. Hooks wrote, "I want to give you an experience I had a few days ago which I think if you can have printed in the farm journals and on the farm pages of the daily papers it will be doing the farmers a great service, as we farmers have an immense loss by fire every year.

"Last year I built a concrete tile tobacco barn and like it so well that I built another this year. A few days ago I was curing 750 sticks of tobacco in one of these barns and was killing it out running at about 165 degrees of heat. The tobacco caught afire in some way. I at once closed all the air holes and threw some water on the flues as quickly as I could. The tobacco was burned but the barn, flues, tier poles and top were not damaged at all, except a few of the rafters were burned off at the top end. This barn was repaired in a few hours, ready to cure tobacco again. If this had been a wooden structure I would have lost the best tobacco I had in the field, for it was right ready for curing and placing into this barn.

TOBACCO SALES BEGIN TUESDAY

Markets At Winston-Salem, Madison, Stoneville And Other Points Will Open At That Time.

Next Tuesday, Oct. 2nd, will mark the opening of the tobacco markets at Winston-Salem, Madison, Stoneville and other points in the Piedmont section of the State.

While there has been a good deal of sorry tobacco harvested this year, the crop taken as whole is, in the opinion of a large number of people, about a normal one, both as to quantity and quality.

As to prices that will be received there is a great difference of opinion, but most men feel that the good grades of tobacco will sell good.

Reports from the eastern part of the State indicate that a great deal of sorry leaf has been marketed there and this has held prices down as far as the average was concerned.

BAPTIST RALLY AT WALNUT COVE

Departmental Conferences To Occupy Part of Time—Important Meeting.

The Sunday School and Young Peoples leaders of the Pilot Mountain Baptist Association will meet at Walnut Cove on Sunday at 2:30 o'clock. The program will be in form of a departmental rally, offering something to every worker in the local churches, announces M. L. Jones, association field worker.

This meeting is significant in that the leaders plan to separate the B. Y. P. U. and Sunday School rallies, giving the B. Y. P. U. the main place on Fifth Sunday programs, and holding district meetings in the association for the Sunday School forces, says Mr. Jones. The suggestion is in line with recent developments in this phase of the work brought about by the Southern Convention. The plan has been discussed by the officers and will be submitted to the meeting Sunday for approval. T. O. Hausr, of Bethania, is the president, and he hopes to have a representative meeting, with delegations from all the churches.

Aside from the departmental meetings Sunday the main feature of the program will be a roll call of the churches, and an effort to help each Sunday School to meet the requirements of a great school. Each superintendent will be asked to report for his church or bring a representative.
