FROST BITES MUCH TOBACCO

Danbury Boys Back From Canada Report Heavy Losses To Tobacco Farmers In Southern Canada.

Charlie Martin and Robert Joyce, who are just back from a month's stay in Southern Canada, state that frost destroyed much tobacco in the section around St. Thomas.

One farmer, for whom they were curing tobacco, and who had 1400 acres in the weed, lost about 500 acres of his crop when a heavy frost killed it two weeks since.

The Danbury boys say they have never seen such frost as occurred there. It was hanging on fences and trees like snow and up in the day when the wind started blowing the air was filled with frost, giving it the appearance of a snow storm.

The tobacco bitten was a complete loss and will not be even taken from the fields.

SURRY GETS 40 MILES ROAD

State Highway Commission Takes Over County Roads For Maintenance And Builds New Ones.

According to information given out last week by the Mt. Airy News, the State Highway Commission has recently taken over for maintenance forty miles more of the county roads in Surry, and, as that paper says, the county tax payers are relieved of a good portion of their road taxes by the action of the State.

It was stated some months since that some of the county roads in Stokes would probably be taken over by the State, but so far no action has been taken along this line so far as can be learned by this paper.

It was suggested by citizens who were discussing the matter here yesterday that the Stokes Highway Commission call the attention of the State authorities to the fact that Stokes so far has not had any aid so far under the new act of the last Legislature.

TOBACCO MARKET OPENED TUESDAY

Weed Averaged \$15.41 First Day When More Than Million Pounds Was Sold At Winston-Salem.

On the opening sale day at Winston-Salem Tuesday the tobacco market sold a little more than a million pounds of the weed at an average price of \$15.44, according to the statement of R. W. McFarland, supervisor of sales.

It was a bad day for the opening, on account of the rainy weather, and probably the price paid was not a fair test of what the weed will average for the season, but, it was said, that the quality of the tobacco offered was very good. The highest prices paid were probably under 50 cents a pound.

Yesterday there was very little tobacco on the market except that which had been left over from Tuesday's sale. The average price Wednesday was about thirteen and a half dollars per hundred when a very light sale was held.
