Stranger.
INTERMEDIATE AND SENIOR TOP-

Jesus shared the common fate of men—unacknowledged in His own country. Even His own brothers did not believe on Him till after His res-urrection (John 7:3-8; cf. Acts 1:14). Familiarity has a paralyzing effect, and at times breeds contempt. Because of unbelief only a limited work could be done there

II. Jesus Heating the Multitude (14:13, 14).

1. He retired to the desert (v. 13). The news of the cruel death of John the Baptist brought grief to the Master's heart, and He withdrew to a place of quietness to commune with His Father. The best thing to do in time of sorrow is to flee into ence of God. Jesus accepted John's death as typical of His own.

2. Followed by the people (v. 13). He could not be concealed. T peoples' interest was such that they followed Him on foot. Where Jesus

is, the multitude gathers.

3. Jesus healing the sick (v. 14). Although the rulers had broken with Him, He did not abandon His work. He continued to preach and work for the good of those who would hear. Though desperate and hopeless cases were brought to Him, nothing was found too hard for Him. The peoples' great need excited His sympathy. He is just the same today.

III. Jesus Healing the Daughter the Woman at Canaan (Matt. 15:21-

The first twenty-one verses of this chapter should be considered in connection with this topic. The force of the lesson can only be seen in contrast with the failure of the people. Verses 1-29 represent the apostasy of Israel and her rejection of the Savior. In sharp contrast, we see in the healing of this woman, salvation typically going forth to the Gentiles.

1. The mother's awful distress (vv.

21, 22). Her daughter was grieveusly vexed with a devil. The sufferings of the mother were perhaps as intense as those of the child. This Gentile wom an had doubtless heard of the fame of Jesus. His power to heal had come to her notice and many times she longed for Him to come her way that her daughter might be healed. that He was in her neighborhood she came straightway to Him. Let parents encouraged to bring their children to Jesus, even though they be demon-

2. The woman's fervent appeal for help (vv. 22-25).

She fell at His feet and pled for mercy. She besought Him to cast the devil out. Her appeal may be con-sldered as a model prayer.

(1) She was sincere and earnest. (2) The prayer was brief and definite. (3) It was personal and humble. (4) It was believing and persistent.

The woman's faith rewarded

(vv. 26-28).
(1) The Lord's apparent refusal stranger to the Covenant people. Her appeal was on the wrong basis. She addressed Him as the Son of David, which only a child of the kingdom had Holland has been awarded the a right to do. She must come in the right way. (2) The woman's quick response (vv. 2.-27). As soon as she perceived the difficulty, she worshiped Him as Lord and cried for help. While only the Israelite could approach Him as the Son of David, all could come to Him and own Him as Lord. She willingly took her place as a Gentile "dog," recognizing that salvation is of the Jews. (3) The glorious issue of her faith (v. 28). She received more than she asked. Her daughter was healed at once and the instruction she received was worth much to her. goes down in history with the Savior's commendation of her faith.

Life Needs a Good Pattern

Remember how swiftly the shuttle flies and how a broken thread may mar the fabric. Remember that with out a good pattern, all weaving is to no purpose; take much thought, therefore, as to the pattern of a good life and be greatly instructed by that life which is the exemplar for us all.-Gaius Glenn Atkins.

Improved Uniform International Will Scrap 6,640

N. C. Automobiles

Sixty - nine thousand unfit automobiles will be removed from the highways of the South during the coming year in an effort which is part of a national Highway Safety Plan undertaken by various companies in the automobile industry, as announced by the National Automobile Chamber of Commerce. The program will involve the expenditure of approximately \$2,600,000 in the Southern States. Nationally, the motor companies plan to scrap 400,-000 old automobiles in 1930, at a cost of about \$15,000,000.

The number of cars which it is estimated will be scrapped in each of the Southern States is as follows:

Virginia,	6,060
North Carolina,	6,640
South Carolina,	3,240
Georgia,	4,260
Florida,	3,960
Alabama,	5,490
Louisana,	4,490
Mississippi,	3,760
Tennessee,	5,860
Arkansas	3,624
Texas	21,210

The program is characterized as "perhaps the greatest single safety move in industrial history," by Alvan Macaulley, president of the Automobile Chamber, and former chairman of its Street Traffic Committee.

"This widespread experiment will strike right at the heart of the unsafe vehicle problem by eliminating a hugh block of those cars which are in the poorest condition," says Mr.

One of the hazards of the highway situation has been the rattletrap car which keeps reappearing on the road after # has presumably been sent to the discard. The aim of this program is to guarantee the actual scrapping of the vehicle. The Plan will be worked out by each company participating, in line with its general sales policies and the volume of its pro-

## Standing out as the better cigarette

THE SINGLE IDEA of superlative quality was the inspiration for Camel Cigarettes.

From the time when the first Camel Cigarette was made that one idea has set Camel apart.

A policy of better tobaccos, combined in an incomparable blend, manufactured with the most exacting care-all to assure the utmost pleasure in smoking.

That is the ideal and the practice back of every package of Camel Cigarettes.

It has made Camel the most popular cigarette ever known. More millions have chosen Camels for smoking pleasure than ever accorded their patronage to any other digarette.
