The Blades Men Swear By-not At

For SHAVING SATISFACTION and ECONOMY!

Now use the new Durham-Duplex "Gold Star Blade"! Keen, strong, *long-lasting*. Look for the Gold Star on each package. Here is what it guarantees in *every blade*:

- ★ **FINEST STEEL**
Selected by leading metallurgists, as the best obtainable for safety razor blades. Pure and **CLEAN**—a triumph of metallurgy. (INSPECTION for uniformity).
- ★ **OIL TEMPERED**
HARDENED... then *tempered* in oil bath. This gives springy, resilient quality necessary for *long-lasting* edges. (INSPECTION to insure correct temper).
- ★ **HOLLOW GROUND**
A safety razor blade *thick enough* to be hollow-ground the same as a barber's razor. Gives more backbone to shaving edge. (INSPECTION of bevel edges for uniformity).
- ★ **SOAP HONED**
Individual honing in soap... the barber's way! Pure olive oil soap used on special hones. (INSPECTION for fineness of actual shaving edges).
- ★ **LEATHER STROPPED**
Each blade (both edges) stropped by 1,000 feet of shell horsehide strops—same action as used by barbers. (INSPECTION of shaving edges microscopically before final tests).
- ★ **HAIR TESTED**
Six places on each edge of each blade must cut a human hair. Test performed by hand—not machine. Then sterilized, rust proofed. Also sight test and final microscopic test.
- ★ **PROTECTED EDGES**
Each blade suspended on tabs to give absolute edge protection. Edges cannot touch wrapping material. Wax-sealed in air-tight paraffin wrapping.
- ★ **NEW PROCESSING**
All methods keyed to latest standards. Automatic manufacture with individual inspection of each blade.
