WALNUT COVE NEWS OF INTEREST

REVIVAL SERVICES CONTINUE AT M. E. CHURCH—ACCIDENT AT DANGEROUS INTERSECTION OF HIGHWAYS — SUNDAY SCHOOL PROGRAM PROGRESSING.

Walnut Cove, May 30.—The revival services at the Methodist church are still in progress. Much interest has been shown by the attendance. Sunday was a big day. Three sermons were preached by Rev. W. H. Willis, including the afternoon service for men only.

Monday represented Sunday School night, each teacher being requested to have the members of the class or together in the church. The roll of each class was taken, and it was found that Mrs. M. O. Jones' class had the highest percentage of attendance. Rev. Willis granted a special privilege to the members of Mrs. Jones' class: That those members be allowed to play croquet with the balls and mallets of the Evangelist.

A great many things, strangely in nature, happen at times. For those who do not know all the details, we have wondered why the townsmen continue to tense and question Mr. Bill Fulton about his trip to Roanoke, Va., last week-end. For those who are still interested, the name of Mr. J. W. Jones, Jr., has been presented as a reference.

Last Saturday evening, at the intersection of State Highways Nos. 77 and 88, Mr. Ed Bennett and son, and Mr. Eva White and son were seriously injured in an automobile wreck. The truck in which Mr. Bennett and White were riding collided with another car at the intersection of the road. It is stated that the driver of each car was on his side of the road when the accident occurred, according to reports of eye witnesses. The question arises: "Who has the right of way at the intersection of that road?"

For some unknown cause to the public, Mr. Joe W. Allen last Monday afternoon acted the part of "Everett True" on Main Street by bursting forth with oaths in the presence of ladies and gentlemen alike. It is said that his remarks were directed particularly to Mr. Harry Davis. It is sufficient to say, however, that Mr. Davis, post-haste, left the vicinity, having business elsewhere.

The committee, composed of Misses Gail Voss, chairman, Frances Petree, and Rebecca Mitchell, have announced that the Sunday School Day program is progressing nicely; that the children have been meeting each afternoon for the purpose of practicing the program. These young ladies have the ability to do it, and it is expected that a fine program will be presented next Sunday morning, June 4th, at the eleven o'clock hour, Stokesburg.

MOUNTAIN WORK BEGINS AGAIN

LARGE FORCE OF HANDS BUILDING ROAD TO HANGING ROCK — CHESTNUT COVE, MORE THAN HALF WAY TO DESTINATION, IS ABOUT REACHED — SURVEY BY STATE HIGHWAY ENGINEER JENNS PRACTICALLY COMPLETED—THE HIGHWAY'S SCENIC BEAUTY.

After a suspension of several days, a large force of hands set to work again Monday on the new road being graded to Hanging Rock. A point near Chestnut Cove, which is more than half the distance from Danbury to the destination, has been reached.

State Highway Engineer Jenns of Raleigh, who with several assistants has been making the survey, has about completed his work. The grade nowhere exceeds 10 per cent. Only a moderate amount of rock is encountered.

Those who have traversed the route of the road now being built report that the scenic effects are most striking, and that from the crest of the ridge embracing the three peaks the view is of almost incomparable beauty. On a clear day points of interest may be seen at a great distance, including scenes in the Blue Ridge country to the north and west, the Reynolds building and other structures in Winston-Salem, as well as other recognizable spots far to the east and south.

The Hanging Rock project, it is said by those in position to judge, must be one of the most important developments in the history of Stokes county, as it will be followed by other developments incident to the mountain section.

Madison Post Preparing American Legion Event

The Madison Post of the American Legion are planning an event on a larger scale than anything of a similar nature ever attempted in Madison and vicinity. On the nights of June 6, 7, 8, 9, 10, in the mammoth Price warehouse they will sponsor and present their first annual and Indoor Circus.

The building will be beautifully decorated and brilliantly lighted and a portion will be set aside for displays in booths of local merchants.

Another section will be allotted for automobile exhibits.

Eight or ten high class professional circus and vaudeville acts will be contracted and the services of a reputable ten piece broadcasting band secured. The orchestra will furnish musical numbers before and between the acts and also for the nightly dances that will climax each night's fun. The ball room will be tastefully decorated and the floor will undergo an electrically waxing process that will put it in excellent shape for the dances.

Legion commander Dr. C. B. Pratt is very enthusiastic and optimistic in the belief that the executive boys are sponsoring a local event and has appointed for his general chairman Mr. W. L. Marshall. Others of the committee who will be active are as follows: Dr. B. C. Carter, Dr. C. M. Milner, T. G. Dallas, Jim Moseley, Archie Bennett and T. P. VanNoppen.

ART STUDENTS WIN PRIZES

HONORS FOR DANBURY YOUNG LADIES SUCCESSFUL AGAINST NATIONAL COMPETITION — TRIBUTE TO MISS FAGG'S ART SCHOOL.

Lois Martin and Marjorie Petree, students in Miss Edith Fagg's art studio at Danbury, are receiving the congratulations of their friends for winning prizes offered by the Wild Flower Preservation Society, Inc. of Washington, D. C.

Lois was awarded \$5.00 as First Prize in Group II (grades 7-9). Her design was a white spray of dogwood (silhouetted) with coral blue background. The legend in orange lettering was "Nature is your friend, be friendly to nature."

Marjorie won a book on "Wild Flowers" for the submission of a poster depicting yellow dogtooth violets in yellow and yellow green, with the legend: "Protect wild flowers."

The contest in which the Danbury girls participated closed April 15. The posters were exhibited in the lobby of the U. S. National Museum at Washington from May 8 to 29. They were judged by a committee of three well known professional artists consisting of Bruce Horsfall of Nature Magazine; R. P. Talmay of the National Museum; and R. C. Steadman of the U. S. Department of Agriculture.

There were a large number of contestants and the winning of prizes against national competition not only speaks highly complimentary to the two Danbury amateurs, but is an exceptional tribute to the superior quality of the instruction being given by Miss Fagg in her Danbury studio.

Submitting To The Third Degree

Mrs. Beulah Probst Frady, an expert of the State Welfare Department, Raleigh, was here Monday conducting a demonstration in the curious art of the cuisine to Danbury dames. Mrs. Frady is employed by the State to show North Carolina women how to cook, especially how to roast rolls which float like a Battle Creek flake, and do not precipitate despair in the pancreatic zone. A large crowd of local ladies were present, and were edified. It is desired that we have loaves that loom large and yield gracefully to the enzymes, trypsin, amylolysin, and lipase.

Jailed

Tom Martin and Curtis Covington, colored, were arrested by Deputy Sheriff Mack Wall and locked up in the Bastille here Sunday. The charge against the darkies is disturbing worship at a colored church in eastern section of the county. No bonds have been arranged yet.

Not So Well

Mrs. R. R. King is reported not so well. She recently returned from a Winston-Salem hospital.

N. Earl Wall went to Winston-Salem Monday.

S. P. U. COMPANY MAY COME HERE

REPRESENTATIVES SIGNING UP CITIZENS OF DANBURY FOR PATRONAGE — LOCAL POWER AND LIGHT PLANT OWNED BY BANK OF STOKES COUNTY, MAY SELL OUT TO POWERFUL CORPORATION.

Representatives of the Southern Power Company have been in Danbury several days recently conferring with citizens and procuring pledges of patronage for lights and power, and the various accessories handled by the corporation.

It is learned that practically all business men and women, as well as private homes, have signed pledges to use lights, power, refrigerators, radios, etc. as an inducement to the S. P. U. to enter the town.

The local light and power plant, which is owned by the Bank of Stokes County, has recently been operated by J. J. Booth, who has given fairly good service. This plant, which represents an investment of a little over \$10,000, usually gives good service, except in dry weather, when low water interferes with its successful operation. It has been suggested that the S. P. U. may buy out the local plant.
