Not like any other cigarette

The United States Government granted Liggett & Myers Tobacco Company the right to use "Chesterfield" for cigarettes

THIS means that the Chesterfield formula—that is, the leaf and the manufacturing formula—is different from that of other cigarettes.

For a cigarette to be milder and to taste better, it has to have in it ripe, mild, mellow tobacco, and the right quantity of the right kinds of Turkish tobacco. Then the cigarette has to be made right.

You can prove for yourself that Chesterfields are not like other cigarettes. They're milder... they taste better.
