

# 2 about Cigarettes

### There are 6 types of home-grown tobaccos that are best for cigarettes

- BRIGHT TOBACCOS  
U. S. Types 11, 12, 13, 14.
- BURLEY TOBACCO  
U. S. Type 31.
- SOUTHERN MARYLAND TOBACCO  
U. S. Type 32.

U. S. Type 11 is produced in the Piedmont Belt of Virginia and part of North Carolina.

U. S. Type 12 is produced in eastern North Carolina.

U. S. Type 13 grows in South Carolina.

U. S. Type 14 is produced mostly in southern Georgia—a few million pounds in northern Florida and Alabama.

U. S. Type 31 includes what is called White Burley tobacco. It was first produced by George Webb in 1864. It

is light in color and body, and is milder than the Burley used for pipes.

U. S. Type 32, Maryland tobacco, is noted for its "burn". In this respect Maryland excels most other tobaccos.

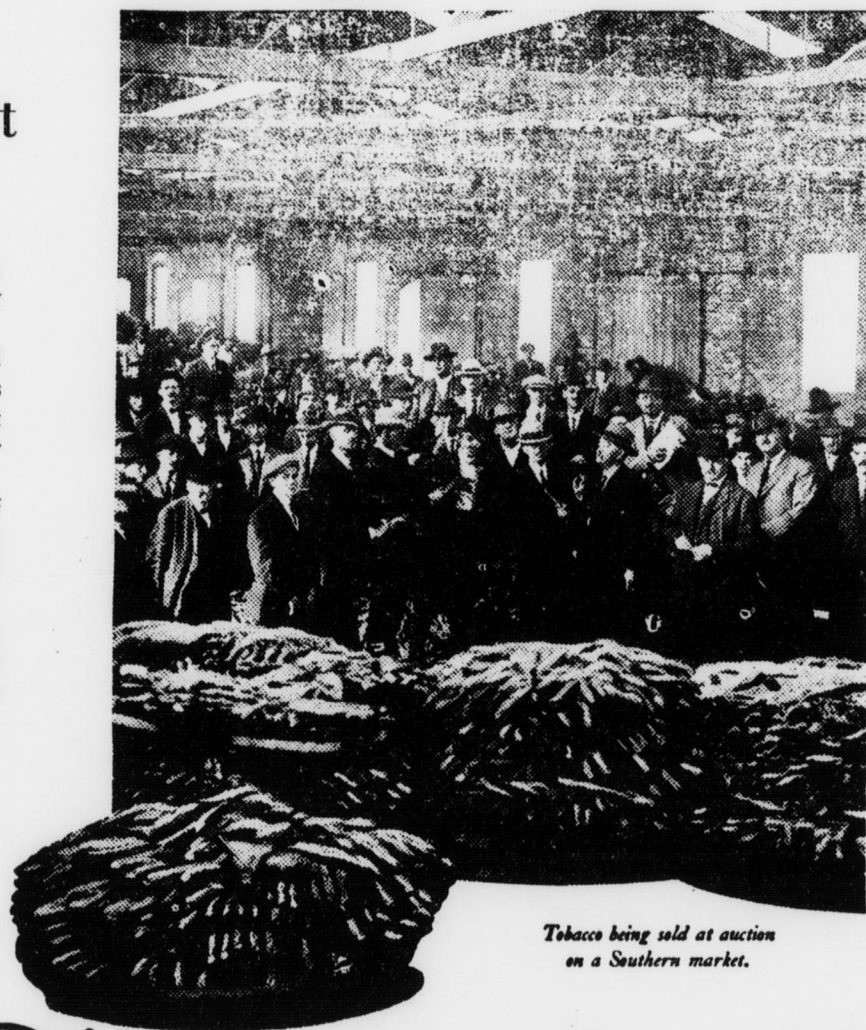

These are the kinds of home-grown tobaccos used for making Chesterfield Cigarettes.

Then Chesterfield adds aromatic Turkish tobacco to give just the right seasoning or spice.

*Chesterfield ages these tobaccos for 30 months — 2½ years — to make sure that they are milder and taste better.*

Wethers, Robert 37 acres	17.49

## The Dry States Are Protected

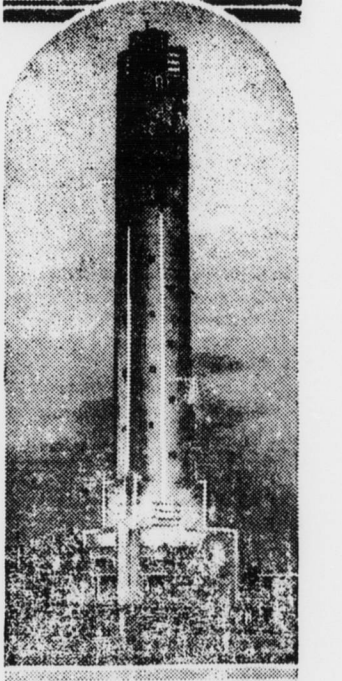

Here is the text of the Webb-Kenyon law passed March 1, 1912, over the veto of President Taft and which remains in effect with repeal of the Eighteenth Amendment:

"Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, 'That the shipment or transportation in any manner, of any spirituous, vinous, malted, fermented or other intoxicating liquor of any kind, from one state, territory, or district of the United States, or place non-contiguous to but subject to the jurisdiction thereof, into any other state, territory, or district of the United States, or place non-contiguous but subject to the jurisdiction thereof, or from any foreign country into any state, territory, district of the United States, or place non-contiguous to but subject to the jurisdiction thereof, which said spirituous, vinous, malted, fermented, or other intoxicating liquor is intended, by any person interested therein, to be received, possessed, sold or in any manner used, either in the original package or otherwise, in violation of any law of such state, territory, or district of the United States, or place non-contiguous to but subject to the jurisdiction thereof, is hereby prohibited."

## The U. S. Navy Will Stay Dry

Secretary Swanson has indicated the Navy will continue dry both by law and by regulation after repeal. In 1862 Congress approved a law forbidding distilled spirits aboard naval vessels, but beer was sold to members of the crew until 1899, when this was abolished by naval regulation. The law remains in force. Officers even before prohibition were forbidden to bring hard liquors aboard vessels, although they were permitted wines and beers until 1914. When 3.2 beer was approved by Congress, Secretary Swanson ruled against its use or possession aboard ships or in naval establishments.

## Largest Thermometer

VISITORS to a Century of Progress can tell you how hot it is by glancing at this huge thermometer which can be seen by day or night from long distances. The thermometer is 200 feet high and has numerals three feet high cut out of pressed wood on each of its three sides. The columns that indicate the temperature are made of neon tubing electrically operated by a master thermometer. Ten miles of wire, 3,000 feet of tubing, sixty tons of steel and several hundred feet of pressed wood were required to build this largest thermometer of them all.

## Fiddlers Convention Next Friday Night

German-ton — On Friday night, November 17, at 8 o'clock a Fiddler's Convention will be held in the auditorium of the German-ton high school.

Attractive cash prizes will be offered. Musicians are invited to attend and participate in the program. A special committee, experienced in arranging musical programs, will be in charge of the arrangement of the program.

Ten cents is the admission charge to everybody.

## SALE OF REAL ESTATE

Under and by virtue of the authority contained in a certain deed of trust executed by J. G. Bradshaw and wife, Fattie C. Bradshaw, under date of July 29, 1928, to the undersigned Trustees, which deed of trust is duly recorded in Book No. 80 of Mortgages, on page 57, in the office of the Register of Deeds of Stokes County, default having been made in the payment of the notes secured by said deed of trust and at the request of the holders of said notes, the undersigned will sell at public auction to the highest bidder for cash at the court house door in Stokes County on

MONDAY, THE 20th DAY OF NOVEMBER, 1933

at 12:00 o'clock noon the following described property:

Beginning at a double black gum near a church running North 3 1/2 degrees East 9 1/2 chains to a stake; thence N. 86 deg. W. 2 chains and 37 links to a stake; thence North 4 degrees East 26 chains and 15 links to pointers. Vaden's corner; thence South 86 degrees East on Vaden's line 38 3/4 chains to a post oak; thence North 5 deg. East 13 chains and 90 links to a poplar stump, near a creek; thence down the creek and Dan River as it meanders East 19 chains to a bend in the River; thence North 69 degrees East 5 1/2 chains to a bend; thence North 43 1/2 degrees East 21 chains to Dennin Rock; thence North 43 degrees West 3 chains and 31 links to a stake; thence North 20 degrees east leaving the River 6 3/4 chains to a stake and pointers at a road. South 88 degrees East 17 chains and 36 links to a pine stump, Taylor's corner; thence South 4 1/2 degrees West on Taylor and Shelton's line seventy-five chains and forty links to a stake and pointers, thence North 86 1/2 degrees West 90 chains and 16 links to the beginning, containing 454 and 43.100 acres, more or less. Save and except one acre deeded to the school house and three acres deeded to William G. Moore and the Moore heirs, subject to any outstanding easements, if any.

This the 20th day of October, 1933.

R. D. DOUGLAS and W. L. FERRELL, Trustees.
