The campaign is actually crying for candidates to enter and carry on to victory.

To those who have entered—What are you doing to insure yourself one of the big prizes in this prize distribution? Are you doing YOUR part, or sitting back and hoping your friends will do it all? Every candidate would be doing his or her utmost toward making THEIR prizes as big as possible. If your friends see that you are doing your part they will jump in and help you pile up a winning total. If, however, they see you are unappreciative and expecting your friends to do it all, they will throw their support elsewhere. It's up to you—candidates. Do your part and your friends will do theirs. To those who have not entered. To you who are still considering the prize distribution, right now is the time to send in your nomination and make your start! You never have had—never will have—such an opportunity for making BIG money quickly, without investment or risk as you have in this prize distribution. VIRGINIA ROAD IS COMPLETED

THE BUCK ISLAND-VIRGINIA LINE HIGHWAY GETS ITS FINISHING TOUCHES — ENGINEERS TO LEAVE NEXT WEEK — A SPLENDID THOROUGHFARE NOW OPEN TO THE PUBLIC.

The State highway from Buck Island ford on Dan river to the Virginia line near Mellone's garage is about completed.

The engineers who have been supervising the construction of this road and who have made Danbury their base of operations, are preparing to take their departure about the middle of another week.

Messrs. B. D. Gentry, Henry Basley, R. F. Barnes and H. F. Lucas will be transferred by the State to other operations.

These young men, who have spent a great deal of their time at Danbury, have won many friends here, and their departure will be noted with regret.

The new Stokes county-Virginia highway, which is on a direct line from Danbury via Lawsonville to Stuart, is a class B gravel highway. It has been surfaced with crushed stone, but the top dressing of tar will not be administered until the spring of 1934.

Everybody wins—you win. You who are in, get busy, work, carry on; you who are still "thinking about" get in. Go after 'em, you win.

Clip or tear out the nomination blank in today's Reporter. Bring it or send it to the Reporter office. Then spend the next two weeks and three days more profitably than any like time of your life was ever spent before. Go in and win.

PRINT VOTES TOTAL WED.

The next issue of the Reporter will contain the first credits score for those who have accepted the Reporter's Free Gift Distribution offer. These days should be the biggest vote making days of the campaign. The opportunity is here for candidates, who as a whole, are not taking advantage of this golden opportunity.

It behooves every candidate to get busy. No candidate can afford to allow his or her "ears to be knocked down." You cannot afford to make snap judgment. If there is anything you don't understand, make it your business to find out at the campaign office. Those of you who are expecting to get busy, who intend to start going after subscriptions in a big way next week, will do well to advance your itinerary a few days. It will pay big. It means the difference between winning your choice of the prizes or being content with one of lesser value. It is up to you. It is you who must work out your own salvation. It is you who can enhance your voting strength and you alone.

Are you going to let others walk away with gifts all for the lack of but a little effort right now?

Candidates must realize that work now will produce subscriptions which count more votes than when the campaign closes. This certainly should spur them to action.

WEED SIGN-UP STARTS MONDAY

S. J. KIRBY HERE TUESDAY ARRANGING HIS COMMITTEES — BELIEVED THE SWEEP OF COUNTY WILL BE CLEAN — PRICES REMAIN FIRM.

S. J. Kirby, county agent, was here Tuesday arranging committees who will begin work next Monday in the sign-up of Stokes tobacco growers.

The sign-up some weeks ago, when about 95 per cent of the county's tobacco acreage was listed for reduction in the 1934-35 crop, is understood to have been an agreement, whereas the new pledge will be a legal contract.

It is believed that the great bulk of the 1934 acreage will enter into curtail arrangement, thereby being in faith with the government, which has forced higher prices on the 1933 crop.

Present prices for tobacco on the market remain firm, gradually getting higher possibly.

SWANSON ASKS FOR BIG NAVY

SECRETARY SAYS OUR CONSTITUTION IS NOW FAR BELOW TREATY STRENGTH — A POLICY OF "DANGEROUS EXTRAVAGANCE."

Lawsonville, N. C.

Washington, Dec. 5 — The policy of the United States government in scrapping its naval armaments to set the example in the world disarmament movement was "dangerous extravagance," Secretary of Navy Swanson said in his annual report today to President Roosevelt advocating systematic building of a full London treaty strength navy.

The secretary, who was a delegate to the disarmament conference in Geneva, pointed out that the United States alone of all signatories to the London naval treaty had made practical reductions.

"We can no longer afford to lead in disarmament by example. Our weakened condition jeopardizes peace because balanced armaments favor diplomacy," the secretary said.

His 35 page report covering the department's activities was one of the briefest presented in recent times by a secretary of navy.

In it, Secretary Swanson advocated a progressive, orderly replacement and new ship construction program to bring the American navy up to full treaty power by December 31, 1936.

In addition, he suggested Congress authorize construction of more aircraft, within the present 1,000 limitation, to put fighting planes aboard ships built since 1926 for which no funds were available.

Swanson requested also that the 15 per cent salary cuts and "frozen" promotion emoluments now effective among naval employees be restored as soon as feasible. He pointed out that the present pay scale is lower than that of 1908.

In his report, Swanson asserted Japan will have her full treaty strength by the end of 1936, Great Britain will be far ahead of the United States, and this country would have only 113 vessels with a total tonnage of 988,520 under arm. He said the United States should build the 26 ships permitted it.
